

## **Department of Health Sciences: BS programs in Nutrition**

Program: Nutrition/Dietetics and Nutrition & Health

Program Contact: Roberta Durschlag, Clinical Assistant Professor

College Contact: Sargent College, M. Matthies, Sr. Assoc. Dean

### **Nutrition & Health**

Outcome: Students will be able to recall basic food and nutrition information and use the information to design diets that reduce disease risk.

Assessment: Students' performance on final exam in introductory nutrition course.

Outcome: Students will be able to describe and evaluate their experience in a community setting.

Assessment: Evaluation of oral presentation and PowerPoint slides

Outcome: Students will be able to evaluate research articles.

Assessment: Evaluation of students' critique of articles published in peer reviewed journals

### **Dietetics:**

Outcome: Students will be able to effectively communicate their plan for a food service operation in both oral and written formats.

Assessment: Evaluation of oral presentation and written summary

Outcome: Students will be able to evaluate research articles

Assessment: Evaluation of students' written critique of two articles published in peer reviewed journals

Outcome: Students will be able to articulate the strengths and weaknesses of dietary and physical activity assessment tools and decide upon their appropriate use in research settings.

Assessment: Evaluation of students' written summary of assessment tools and their appropriate use
