APPROVAL AND IMPLEMENTATION

The National Emerging Infectious Diseases Laboratory’s (NEIDL) Comprehensive Emergency Management Plan (CEMP) is specific to the facility located at 620 Albany Street, Boston, Massachusetts 02118. It provides a framework whereby the staff of Boston University will plan and perform their respective emergency functions during an emergency event at this facility. This plan includes functions that Boston University would rely upon the City of Boston and the Commonwealth of Massachusetts to perform.

This plan may be modified by the Director, Emergency Management, or designee to reflect changes in personnel, spelling, grammar, nomenclature, and minor changes in procedures that do not change the intent of the plan.
