

Export Control Checklist

Your answers to the questions below will help Sponsored Programs determine whether export controls apply to your research. Checking "YES" on this form does not automatically mean that your research is controlled under export regulations. It only helps the University evaluate potential issues and gives the opportunity to provide you with information necessary for you to determine the feasibility of conducting research with export control restrictions. Feel free to contact the Export Control Officer at 617-353-6753 or export@bu.edu if you need assistance with completing this form prior to submission to Sponsored Programs.

More information on export controls at Boston University can be found at <http://www.bu.edu/researchsupport/compliance/export-control/>.
