

Paul Hartung
Board Director
Leuko, SemiNex, MDG

Paul is an experienced life sciences executive with a proven track record in launching successful startup businesses and leading Fortune 500 organizations. He serves on the Boards of Leuko, an award-winning startup developing a non-invasive white blood cell finger test, SemiNex, a profitable semi-conductor laser company, and Medical Development Group (MDG), a leading medical technology professional organization. He also serves as a Business Advisor to Neutron Therapeutics, a developer of neutron beam technology for cancer treatment. He is an active supporter of the life sciences entrepreneurial ecosystem, mentoring at MIT Venture Mentoring Service, Mass BioTech Council's MassCONNECT, and The Capital Network. Paul founded Sonivance, developing hearing augmentation technologies, and served as President & CEO of Cognoptix, which developed an innovative eye scan for early detection of Alzheimer's disease, raising \$32M from Angels, VCs and family offices and taking the company through successful Phase 2 clinical trials. He was previously Vice President of Operations at Winphoria Networks, a successful mobile communications startup acquired by Motorola. He has extensive experience in technology and medical device industries, including managing manufacturing for Summit Technology, Inc., a leading developer of the LASIK procedure and other laser eye correction procedures. He has held senior management roles at 3Com, Trumpf, Laser Fare and GE. Paul graduated with honors from MIT with an MS Degree in Mechanical Engineering. He is an active speaker, author and inventor on a number of patents.
