

ADELE S. RAADE

PROFESSIONAL EXPERIENCE

Assistant Professor (1993-1997), Adjunct Assistant Professor (1997-present)

Department of Speech, Language, and Hearing Sciences, Boston University

- Teach *Anatomy and Physiology of the Speech Mechanism*
- Provide a variety of guest lectures including: *Assessment of the Young Internationally Adopted Child: Evidence-Based Practices, Multicultural Issues, and Early Intervention*
- Developed and taught courses which included motor speech disorders, dysphagia, aphasia, neuroanatomy and neurophysiology, and research methods

Speech-Language Pathologist at Children's Speech and Language Services

(March 2008-October 2009)

- Developed a practice serving internationally adopted children and their families
- Assessed and treated a wide variety of children including those coming from multicultural backgrounds
- Achieved my seventh ASHA ACE Award in November 2007, which represented completion of a total of 490 clock hours of continuing education

Speech-Language Pathologist at OTA—Wakefield (2003-2007)

- Assessed and treated children from two to fourteen with a variety of speech and language disorders
- Assessed and treated young children who were internationally adopted
- Co-facilitated a social skills group for four-year-old boys with a diagnosis on the autism spectrum

Speech-Language Pathologist in Early Intervention (2000-2003)

- Treated infants and toddlers with dysphagia, childhood apraxia of speech, significant hearing loss, and a diagnosis on the autism spectrum
- Assessed and treated toddlers who had been internationally adopted
- Supervised one graduate-level student clinician for one semester
- Achieved status as a Certified Early Intervention Specialist (CEIS)

Speech-Language Pathologist for several skilled nursing facilities which included sub acute rehab units (1997-1999)

- Evaluated and treated adult patients with dysphagia, dementia, dysarthria, aphasia, and cognitive-communicative deficits
- Implemented a *Green Dot* program to improve the accuracy and reliability of the thickening of liquids for dysphagic patients
- Viewed and assisted in interpreting Modified Barium Swallow studies
- Provided a variety of in-services to the nursing and clinical staff

Assistant Professor, Department of Communicative Disorders

University of Western Ontario (UWO), London, Ontario, Canada (1987-1993)

- Designed and implemented a treatment study with severely aphasic adults using a computerized alternative-augmentative communication (AAC) system
- Supervised graduate-level student clinicians in the UWO Speech and Hearing Clinic

EDUCATION

- Doctor of Philosophy in Speech-Language Pathology, University of Florida (1990)

- Master of Arts in Speech-Language Pathology, Northwestern University (1982)
- Bachelor of Science in Speech Pathology, Western Michigan University (1978)
