WORKSHOP FACULTY:

Anne Doughty, B.S.,OTR/L

adoughty@butler.org

Anne is a graduate of the University of Buffalo and has worked for 12 years as an occupational therapist in acute medical care, worked in psychiatric home care and presently specializes in acute geriatric psychiatry at Butler Hospital in Providence, RI. Anne's experience allows her to understand and appreciate the challenges and needs of the geriatric population and their caretakers at home and in the community.

Barbara Ostrove, B.S., OTR/L

bostrove@butler.org

Barbara graduated from Temple University and has spent 28 years working with the pediatric and adult populations, in both community and inpatient mental health settings. She is the manager of the Occupational Therapy department at Butler Hospital. Her extensive experience with the adult population has led to an appreciation of the functional deficits that can result from psychiatric illnesses.

OTAPS:

- **Occupational Therapy Assessment of Performance and Support** is an individualized, client-centered measure designed for use by occupational therapists to assess Basic and Instrumental activities of Daily Living (BADL and IADL) and assist in the process of discharge planning. The instrument is a low-tech, logical and occupational based evaluation that can be administered in under one hour.

BOSTON UNIVERSITY/TUFTS UNIVERSITY:

Boston University Sargent College and Tufts University Dept of Occupational Therapy are combining their efforts to meet the continuing educational needs of fieldwork educators who supervise our students. Because of the collaboration facilities that have taken either a BU or Tufts student in the past year may attend this workshop at no cost. Look for additional BU/TU workshops in the future.
