

SED Server Instructions

Local connection, Mac OSX

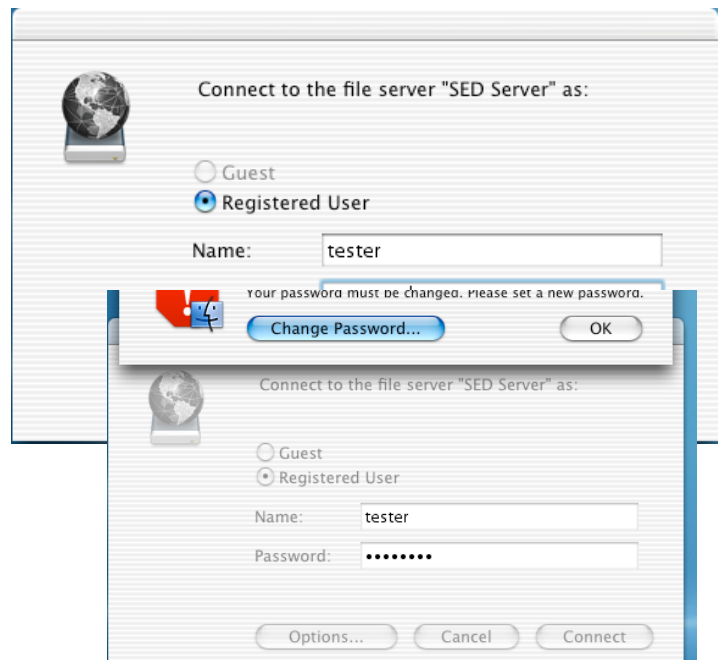

1. To connect to the SED server locally (on campus), choose "Go" from the Finder, then choose "Connect to Server".

2. The box to the right will appear. In the Address area, type "afp://sed.bu.edu"

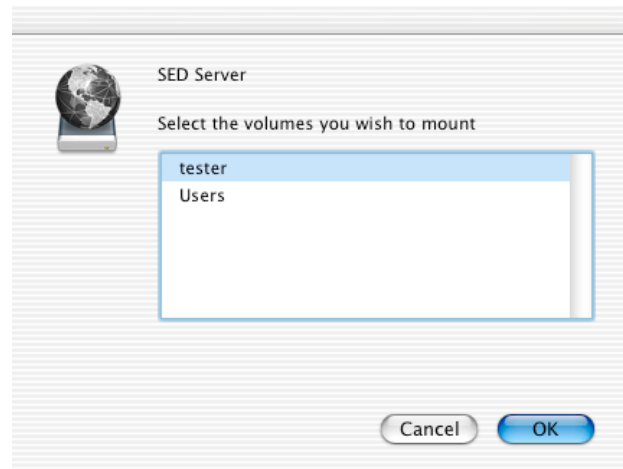

3. Type in your user name and password then click on "Connect".

4. If this is your first connection to the server you may be asked to change your password.

Click “Change Password” and create your own password (Your password has to be at least 6 characters long). You will be asked to supply the new password again after the change.

5. Choose your account username and click on OK.

6. An icon of your account will be created on the desktop. You may want to create an alias by press Apple+L keys which you can use later to connect easily.

To disconnect from the server, drag the server icon from the desktop to the trash.
