

## Academic Year 2011-2012 Earnings Chart

The Earnings Chart is a tool to assist supervisors in planning student work schedules for the upcoming academic year. This chart will help supervisors to determine, based on the student's pay rate, how many hours per week each student may work throughout the academic year given the student's Work-Study award amount. Figures on this chart represent combined earnings for the Fall and Spring semesters.

It is the joint responsibility of the supervisor and the student to ensure that the student does not exceed his or her Work-Study award amount. On-campus supervisors who have online access can **view Work-Study balance information by using the Business Link Student Employment Function "Student Employees by Mail Code" and clicking on a student's job number.** In addition, students' weekly on-line pay stubs display their earnings-to-date as well as their remaining Work-Study award balance.

Please note that this earnings chart is based on 33 weeks: 16 weeks in the fall (excludes Winter Break) and 17 weeks in the Spring (excludes Spring Break).
