

Power. Privilege. Prophetic Witness.

WOMEN IN THE WORLD-APRIL 13,2016

ANNA HOWARD SHAW CENTER

Power. Privilege. Prophetic Witness.

In light of troubling current events and a largely underacknowledged history of racism in the United States, this year's conference focuses on lifting up the voices of African American women. We will explore the unique challenges and struggles of African American women, as well as the ways in which they have found strength and pushed the boundaries of inherited narratives. Further, this conference will explore theological, ministerial, and sociological responses to this crisis, and put it in conversation with other rhetorics of fear that currently exist.
