

### Advanced Standing (AS) Full-time CLINICAL Program Plan (with Research I)

Students select five electives in which one is a Welfare Policy Elective (WP) and one is a Clinical Practice Elective (CP).

All students must take an advanced clinical or macro practice course that corresponds to their major during at least one semester of the advanced placement.

It is highly recommended that at least one additional advanced practice elective be taken during the other semester(s) of the advanced placement.

Any changes to this plan during the summer must be made with Student Services otherwise with a Field Education staff member.

Summer Term I & II			Fall Term		
CP 770	CP with Individuals	2cr	CPXXX	Clinical Practice Elective	3cr
