

Advanced Standing (AS) Full-time MACRO Practice Program (having waived out of Research I)

Before you enter the field any change to this plan must be made in consultation with Student Services.

Once you have entered the field any change in this program plan must be made in consultation with a member of the Macro Field Education Department.

All students must take an advanced clinical or macro practice course that corresponds to their major during at least one semester of the advanced placement.

It is highly recommended that at least one additional advanced practice elective be taken during the other semester(s) of the advanced placement.

Students select four electives in which one is a Welfare Policy Elective (WP).

If planning to apply for the Human Services Management Certificate Program, please review the program plan as soon as possible and contact the Certificate Director Julie Springwater at jpsring@bu.edu.
