

Full-Time MACRO Program Plan for Charles River Students

Select five electives in which at least one is:

- Human Behavior Elective (HB)
- Welfare Policy Elective (WP)

All students must take an advanced clinical or macro practice course that corresponds to their major during at least one semester of the advanced placement.

It is highly recommended that at least one additional advanced practice elective be taken during the other semester(s) of the advanced placement.

If planning to apply for the Human Services Management Program, please see that program plan before you begin your First Year Spring Semester.

Any change from this program plan must be made in consultation with a member of the Macro Field Education Department.
