SC13 is the international conference for high performance computing, networking, storage, and analysis, being held November 17-22 in Denver, Colorado. Boston University has participated in the SC conference series since its inception nearly 25 years ago, including a booth hosted and organized by IS&T's Scientific Computing and Visualization group, showcasing research computing endeavors across many areas of the University..

We invite you to participate in the BU booth at SC13, for your group as a whole and for the individual researchers within your group. Our booth is in a high-traffic area of the exhibit hall, and provides an opportunity for disseminating information about your research and other programs. If you'd like us to include your information, please send us any or all of the following:
	What We'd Need From You	Deadline
BROCHURE: Distribute your group's brochure through the BU booth.	50-100 copies of your brochure. Brochure should not be larger than 8½" x 11".	November 1
HANDOUT: Distribute your group's handout through the BU booth	Either 50-100 copies of your handout, or a PDF of your handout, with one printed copy (so we can ensure we print it properly). Handouts should not be larger than 8½" x 11".	November 1
YOUR SC12 SESSIONS: Inclusion in "BU @ SC12" handout.	Provide information about any papers, panels, or other sessions your group is presenting at SC12.	November 1
Other ideas? Please specify:		

Please also let us know who we should contact regarding your group's participation in the BU SC13 booth.

On the back of this sheet is our draft booth layout, to give you a general idea of what the booth will look like. The layout will be finalized through consideration of factors such as convention center requirements, layouts of the booths surrounding us, and your feedback. Please send materials, questions, and comments to:

Jennifer Teig von Hoffman
