The display lists in summary the total Funds Reservations $10,000,000. The reduction of $1,355 is a result of a vendor invoice referencing one of the Funds Reservations. The Adjustments from Follow-on Documents is the result of Funds Reservations being Closed (or set to complete) with the balance being removed for the Total Commitments. The invoice amount is an actual and is probably what was reference in the funds reservation above.
There is also a journal entry transferring an expense from another cost object. You can go from any of the totals records displayed directly to a list of relevant line items by drilling down.
