### Quick Reference Guide - Org Management

#### Completing a Create Position Form (page 1 of 7)

**About This Guide**

- **Complete an Organizational Management (OM) Create Position form** when you want to create a position which does not currently exist within your organizational (org) structure.

**Notes**

On the Create Position form, you have 2 options for creating a position:

- **Create from Job** allows for a position to be created using a job code. One, 20001554 *(To be determined)* allows the Compensation team to assign the correct job code when they see the Create Position form via their Workflow approval.

- **Copy from Position** - Use this option when the new position will be the same as an existing position currently within your org structure.

**Prior to Creating a Position**

- **Contact Central HR to work with them on details for the position you want created**
- Keep in mind Workflow and timing of your Create Position form submission. Actions on the Personnel Administration (PA) side often require an OM position form first be approved. Avoid waiting until the last minute to complete a **Create (or Maintain) Position** form.
- **Check your Org Structure** to determine if a similar position to the one you want to create already exists. If this is the case, obtain the Org Unit ID and Position ID (helpful when using **Copy from Position**). Refer to the segment below for instructions on looking up a position

**Looking up a Position within Your Org Structure**

1. From the BUworks Central portal, click the Manager Self-Service or Payroll Coordinator tab.
2. Click the sub-tab of **Organizational Overview**
3. Click the **Organizational Overview** link to obtain the ID of the org unit.
4. From the **Org Unit Selection** dropdown, select **Organizational Structure**.
5. Select the appropriate org structure and sub-unit from the list that the position will fall under. For example:

   ![Organizational Structure Diagram](image)

(Continued in the next column)

**Looking up a Position in Your Org Structure (cont.)**

6. Refer to **Account Assignment Features** to review and mark down existing, active positions for the Org Unit you selected, including the **Position ID** and **Holder** (i.e. employee) of the position. This will help should you opt to use **Copy from Position** later.
7. Click the **Close button** to exit. You are now ready to create the position.

**Accessing the Create Position Form**

1. From the BUworks Central portal, click your Manager Self-Service or Payroll Coordinator tab.
2. Click the sub-tab of **Organizational Overview**
3. From **Organizational Management Actions**, click the link labeled **Create Position**. The screen refreshes and the **Create Position** form appears, shown below:

![Create Position Form](image)

You have successfully accessed the Create Position form and are now ready to start completing it:

(Proceed to the next page)
There are seven main tabs on the Create Position form.

1. **Number of Positions** *(you want to create)* — Though defaulting to “1,” you can change this value to indicate the number of (exact same) positions you want to create.

   **Notes:**
   - Increasing the Number of Positions from 1 to a greater number is common when creating multiple (typically temporary) positions
   - If you’re using separate budget lines, leave the Number of Positions at “1,” as these positions will need to be separately created positions (i.e. requiring completion of separate Create Position forms)
   - Remember, there is a 1:1 relationship between a position and an employee assigned to it - though an employee can hold more than one position

2. **Type of Action**
   - **Create from Job**
   - **Copy from Position**

   Let’s look closer at each, starting with Create from Job.

   **Using “Create from Job”**
   - This option should be used if you know the specific job code that is associated with the position you wish to create.
   - Clicking **Create from Job** allows you to search across list of all BU job codes for the specific job code you want, using the match code icon. **Tip:** In the Create from Job text box, you can enter one of these commonly-used, generic Job Codes
     - **For a Temporary** position, please choose from the temporary job code family listed in the job search function
     - **For a Non-Compensated Faculty** position you’re creating, enter 20001552
     - **For a Non-Compensated Staff** position you’re creating, enter 20001553
     - **If you are not sure which job code to use**, enter 20001554, for To Be Determined (TBD).
   - **Note:** Compensation will assign the correct job code when they see the Create Position form via Workflow approval.

   **Next - You MUST CLICK the **Create from Job** button!**

   (Continued in the next column)
At this point, you’ve opted to either Create from Job or Copy from Position (Note: in our example, we’ve opted to use Copy from Position).

We’re now looking at the remaining half of the Action Type tab of the Create Position form, shown below:

3. **“Attachments”**

Uploading attachments is optional. It is intended for adding attachments containing information specific to the position ONLY. For example, for a Lab Technician position, the attachment might contain an expanded list of chemicals the employee will be working with.

**Notes:**
- The Create Position form being completed will ultimately pass through Workflow for official approval (Comp, Budget, Dept. Level 1 and/or Level 2 approvers) Therefore, you need NOT attach any “offline approval” documents as a means of getting a position past Workflow approval.

(Continued in the next column)

---

**“Attachments”** (continued)

- NEVER attach documents containing sensitive, employee-specific information
- Attached documents will live on the Position after it’s created (not the employee record). They can be viewed via the Maintain Position form. Attachments do not appear in the back-end/SAP

Information contained within an attachment is not extracted or validated; therefore it will not be searchable nor reportable (i.e. accessible via reporting) in SAP

**To upload an attachment:**

A. Click **Browse...** to locate the file on your computer.
B. Select the file from your local drive. It will then appear on the Create Position form (by name) in the textbox.
C. Click **Attach File.

---

**Notes:**
- Comments are MANDATORY and have a limit of 150 characters which includes spaces: eg. “This role was approved by “X” in COMP with “Y” grade and “Z” salary.”
- Comments are seen by the Workflow approval groups (Budget, Comp, Dept. Level 1 and/or Level 2 approvers) and not by the HR Recruitment team.
- There is a specific field which will be seen later on the Additional Data tab called Recruitment Comments which can be used to enter comments intended specifically for communicating with the HR Recruitment team.

---

**The “Position Details” Tab**

5. Click **Continue**. The Position Details tab appears:

6. **Effective Date** – The earliest date the position can exist as an object in SAP & display within your org structure (remember the form needs to go through approvals, which could delay the position appearing in your org structure). **Tip:** Given most positions are created because there is an “immediate” need to hire, the Effective Date often is entered as today’s (i.e. the current date).

7. **Organizational Unit** – This field will pre-populate if you used Copy from Position. **Note:** It will need to be searched for and entered if you used Create from Job. **Tip:** make sure to click the **[Select OrgUnit]** button after you enter your Organizational Unit.

(Proceed to the next page)
### The “Position Details” Tab (continued)

8. **Job** appears, based upon use of **Create from Job** or **Copy from Position**.

9. **Position Long Name (Business Card Title)** – Use this field only to enter the name of the position as it might appear on a business card. For example:

```

```

- **Recruitment/Hire Indicator**
  - **No/Remove recruitment or hire selection**
  - **Mark this Position open for Hire**
  - **Mark this Position open for Hire and Post to HR Recruitment Website**

### “Mark this Position open for Hire”

This option is used for:

- **Opening a position for hire that is NOT posted through Human Resources so that an employee can be hired into it. Such non-posted positions include: Faculty, Temporary and Non-Compensated Positions, Academic Research, etc.** - “I want the door to this position to be opened, so that it appears on the Hire form as a vacant and available-for-hire position, allowing me to proceed with getting an employee hired into it. I DO NOT want this position posted.”

- **(On the Maintain Position form) A position which currently exists within your Org Structure that you want to hire an employee into** - “I created this position earlier, but wasn’t ready to begin hiring for it. I am now ready to do so, and have therefore selected this option. I do not want this position posted.”

### “Mark this Position open for Hire and Post to HR Recruitment Website”

This option is used for:

- **STAFF positions that get posted to the BU Recruitment website (through HR) and get an employee hired into it (also through HR, who enter the new hire)** - “I am requesting HR Recruitment begin the recruitment process for filling this position. This starts with a Recruiter posting it to the BU Recruitment website. I have indicated the ideal date that I’d like the position posted in the **Posting Date** field. In working with Recruitment, I am ‘opening the door’ to this position so as to allow Recruitment to eventually hire a Staff employee into it for me.”

**Note:** Once the position completes Workflow and has all of its approvals, an Recruiter will contact you to discuss the recruiting and posting process.
