Aims and Objectives
- To prepare students for three pieces of assessment work required for their 4-credit internship course
- To provide in a seminar/tutorial setting an opportunity for students to meet and reflect on their internship experience in order to place this within an academic context
- To provide academic frameworks and exercises which will enable students to critically assess their internship and bridge this with their academic studies at BU-London

Assignments
Assignment 1 (20% of final grade): 1000 words
This should contain an introduction to the company which outlines, among other things, its history, activities, principle customers, competitors, strategies, workforce, organizational structure and corporate culture. The student’s position and responsibilities should be outlined and also the department/office/section where they are working. It should also contain a section on why the student is doing the internship, their aims and expectations. In addition there should be daily, reflective logs kept in a diary from. While these can be written from a personal viewpoint they must contain a critical, objective overview.
Assignment 2 (30% of final grade): 1,500 words
Either a placement project or a research paper.

Placement Project
Students should provide a structured outline of a project which they worked on during their internship. This should contain an overview of the project, its aims, purposes, success and where this fitted within the larger organization. The student’s role within this project should also be given. An analysis and evaluation of the project should be provided. Students can use photos, realia and examples of their project, but this must be done in a structured manner with text explaining and contextualizing visual material.

Research Paper
This should focus on an aspect of the internship which relates to a current topic in PR. It could focus, for example, on media or customers relations, development of corporate/product brand equity or be more theoretical in outlook and examine, for instance, the relationship between PR theory and practice. Students can either take a case study approach – looking at one specific example or case – or take a more general approach which relates aspects of the internship/organization to the chosen topic. In line with a research paper, there should be research question or questions, empirical evidence and a discussion. A careful blending of theory/praxis is vital here.

Assignment 3 (40% of final grade): 2,000 – 2,500 words
Analysis of the organization at which the student has interned plus reflective conclusions on the internship experience. This section should first critically evaluate the student’s internship experience. How did they perform, what did they learn, did they achieve what they expected (why/why not?), how did this experience fit into their larger, overall plans? Next students should analytically compare their British working experience to a home working experience (e.g. a prior internship in the United States). In what ways was the British working environment different from that back home. To what degree can this be academically explained, and to what extent was it conditioned by the working environment and individual idiosyncrasies? Students should next relate their academic studies to their work experience, from both their core and elective courses. To what degree has what they have learnt in class help to explain their internship? It is here that students should blend theory with practice. Can PR theory, for example, contribute to an understanding of their internship, were PR strategies, operations and practices evident during the students’ work experience, did the work experience enrich the student’s understanding of PR and did what was learnt in class help to facilitate the internship? If not, how can this be explained? Students are expected here to use academic material from course books and other academic sources. Finally students should take on a consultancy role and provide, in an objective and critical manner, an outline of the strengths and weaknesses of the organization and a list of recommendations to improve future operations.
