G. Office Hours By appointment

Course Objectives
The aim of these internship tutorials is to offer students the opportunity to meet with each
other and a member of faculty in order to reflect upon their internship experience and to
begin to place the internship into an academic context.

Assignments
Assignment 1 and 3 are written assignments. Please make sure that your paper is at least 1.5
spaced and that you have a cover page with the following information:

- Your name
- The title of the course
- The title of your paper
- The word count
- A declaration that it is your own work
Assignment 1

Due date: Monday 7 March, before the start of the tutorial.

You are required to submit an introduction to the company or the organisation at which you are interning. This piece should be a maximum of 750 words.

Examples of items that you might want to cover:

1. Give an overview of the professional field (i.e., Banking/Consulting in Britain) that will allow the reader to place your organisation into context. Explain where your organisation fits into the general scheme.

2. Describe the organisation and the department to which you are assigned. Outline the management structure, the finances, and personnel. Describe the roles of the people in your department.

3. Define the aims and objectives of your organisation, and your department.

4. State your personal objectives for the placement. What do you hope to learn from the placement, and why?

5. A general record of what you did on a daily basis.

Assignment 2  (50%)

Due date: The assignment will take place on Monday 28 March or Thursday 31 March, depending on which group you are in.

Your powerpoint slides are due by 9:00pm on Sunday 27 March, and are to be submitted via email.

You are required to split yourselves into pairs and together give a presentation of approximately 8 minutes. The presentation could be on a project or piece of work which one or both of you have been involved in during the internship. Alternatively, it could be on any relevant topic related to the industry at which either one of you is an intern.
Assignment 3  (50%)

Due date: Monday 18 April at 9.00am.

As this assignment is to be submitted via email, please make sure that your paper is converted into a pdf-file before sending it to me.

You are required to submit a paper of no more than 1500 words (maximum). The aim of this paper is to analyse and draw some conclusions about the organisation's role and its achievement, or non-achievement of objectives. The conclusions deduced should be based on factual material, quotes and or interviews with co-workers. The paper could cover (but is not limited to) the following points:

1. Summarise the work done by you and the organisation during your placement.

2. What did you perceive as the strengths and weaknesses of the organisation?

3. Put your placement into context by an analysis of current events (for example, what are the effects of the world economic slowdown on the market in which your host organisation operates?)

4. Put yourself in the role of consultant. What recommendations would you make to the organisation?

5. What are your personal conclusions about the placement, in terms of what you learned and accomplished? Refer to the personal objectives you included in the first assessment.

Alternatively your may wish to base your paper on your presentation in Tutorial 2.

Tutorials

Tutorial 1

This is an introductory tutorial. We will begin by talking about the global economy, tying it into the general climate experienced in the world of finance today, and the atmosphere in the banking and mortgage sectors in particular. We will also cover what work is expected of you in the coming tutorials and what assessments you have to complete and submit.

Tutorial 2

This tutorial is mainly to discuss your upcoming presentations as well as to share some of your experiences from the internship with your fellow colleagues.
Tutorial 3

This tutorial will mainly serve as a forum for your presentations. You will also have an opportunity to ask questions on your final paper and get feedback on any work you have done on this so far.

Grading

Please refer to the Academic Handbook for detailed grading criteria, attendance requirements and policies on plagiarism:

Please note that, where appropriate, performance in tutorials and attendance will be taken into account when determining the overall mark for the course. Grading will be in accordance with the standards set down by Boston University.

Readings

Some readings may be posted on the course webpage:
http://www.bu-london.co.uk/academic/LE (you must be logged in to view materials).
