Guidelines on Mobile Financial Services (MFS) for the Banks

1.0 Introduction

The banking industry of Bangladesh has shown tremendous growth in volume and complexity over the recent years. Despite making significant improvements in all the areas relating to financial viability, profitability, innovation and competitiveness, there are concerns that banks have not been able to include vast segment of the population, especially the underprivileged sections and rural people into the fold of basic banking services.

On the other hand, rapid growth of mobile phone users and wider range of the coverage of Mobile Network Operators (MNOs) has made their delivery channel an important tool-of-the-trade for extending banking services to the unbanked/banked population.

In order to ensure the access of unbanked people by taking advantage of countrywide mobile network coverage, Bangladesh Bank has brought out these operating guidelines for adoption by the commercial banks of Bangladesh.

2.0 Issuance

Bangladesh Bank is issuing this guidelines as per the Article 7A(e) of Bangladesh Bank Order, 1972 and Section 4 of Bangladesh Payment and Settlement Systems Regulations, 2009.

3.0 Purpose

The purpose of these Guidelines is to:

I. Provide regulatory framework for the Mobile Financial Services [MFSs] which will create an enabling environment for innovations in financial services;
II. Minimize the usage of cash and its associated costs;
III. Ensure compliance with Anti-Money Laundering and Combating Financing of Terrorism (AML/CFT) standards set by AML/CFT rules, regulations, guidelines and instruction issued by Bangladesh Bank; and
IV. Promote accessibility to formal financial services especially to the poor and unbanked population at an affordable cost.

6.0 Permissible Models

Depending on the operation, responsibility and relationship(s) among banks, MNOs, Solution Providers and customers mainly two types of mobile financial services (Bank led and Non Bank led) are followed worldwide.

From legal and regulatory perspective, only the bank-led model will be allowed to operate.

The bank-led model shall offer an alternative to conventional branch-based banking to unbanked population through appointed agents facilitated by the MNOs/Solution Providers.

Customer account, termed "Mobile Account" will rest with the bank and will be accessible through customers' mobile device.

Mobile Account will be a non-chequing limited purpose account.
