What is FIRST?

FIRST (For Inspiration and Recognition of Science and Technology) is an annual, international high school robotics competition. Undergraduates, teachers, and volunteers from BU mentor and guide high school students from Boston University Academy (BUA) in the design and construction of a 5-foot, 120 pound, competitive robot!

More Information

All donations are tax deductible. Checks should be made out to “Boston University Academy” with “Robotics” in the memo field. Donations should be mailed to the address below.

We are very grateful for your support!

Boston University FIRST Robotics Team 246 Overclocked

“The varsity sport for the mind”
The BUA Robotics team, Overclocked Team 246, is a high-school robotics team led by BU and MIT undergraduate students. Our team designs, builds, and programs, a robot to compete in the annual FIRST Robotics Competition (FRC).

In 2011, Overclocked won the Boston Regional Chairman’s Award, FIRST’s most prestigious award! We went on to compete at the Championship in St. Louis.

Our sponsors get great visibility at all of these events:
Beyond building robots, Overclocked hosts offseason VEX, FIRST Tech Challenge, and FIRST Lego League competitions. We also support various middle and high school teams through workshops and shared lab space.

As the 2012 season looms, we hope to find new generous sponsors to help us in our endeavors. We are interested in both monetary donations, as well as donations of products or services.

Benefits of being a sponsor may include:
• Your ad in our promotional booklet, distributed to thousands of potential customers who attend our events
• Your company logo on our team t-shirts, which are worn by our 50 team members
• Your company logo on our highly trafficked website, burobotics.org
• Your company name/logo on the side of our robot!
• Your company banner hung at our events!
