Research Assistant at the VA-BU-SLI Brain Bank

VA-BU-SLI Brain Bank
Boston University School of Medicine
VA Bedford Healthcare System

Looking for a recent college graduate interested in pursuing a career in neuroscience, neuropsychology, and other related fields. Applicants will gain exposure to neurodegenerative diseases and neuropsychology, while working in a wet lab at the VA-BU-SLI Brain Bank.

Major duties include the following: data collection and entry, assist on brain tissue cutting, prepare tissue for collection and shipment, organize incoming brain cases, general administrative tasks, and other duties assigned by your direct supervisor. In addition to daily tasks, applicants will also have the opportunity to oversee a paper worthy research project on the pathology side of the research. This is a great opportunity to get involved in groundbreaking research.

Skills and Requirements:
• Degree in basic sciences or other biological disciplines
• Interest in the study of Chronic Traumatic Encephalopathy, Alzheimer’s Disease and other Neurodegenerative diseases
• Excellent interpersonal skills both verbal and written
• Must be able to work with limited oversight
• Computer software proficiency
• Applies meticulous attention to detail
• Background in statistical analysis preferred
• Wet lab experience preferred
• 2-year commitment preferred
• Must have access to a car

To apply, please email a cover letter and resume to Lauren Murphy at lmurphy2@bu.edu. An in-person interview will follow for top applicants.
