In the fall of 2000, Boston University opened its newest apartment-style residence. Located on the west end of campus, this air-conditioned facility is a premier housing site. Each unit has four single-occupancy bedrooms, two bathrooms, a small kitchen and a living room. Bedrooms are furnished with a twin bed, desk and chair, dresser, and closet. Kitchens are equipped with a refrigerator, sink, stove, and microwave oven. Guests must provide their own kitchen supplies and utensils. Living rooms are set comfortably with a sofa and chairs along with a dinette set. Please refer to the floor plan below for a typical unit at 10 Buick Street.

Beds are made prior to arrival. Guests are supplied with bath linens and basic amenities including soap, shampoo, bathmat, water, and a Campus Directory of Services. Daily maid service is not provided. For long-term programs, linens will be changed and the suite cleaned once a week. Instructions will be provided for guests who wish to obtain additional amenities or exchange bath linens. For guest convenience, there is an alarm clock in each bedroom. Televisions and telephones are not provided as standard equipment; however, arrangements can be made in advance with Conference Services to provide phone service in guest suites for an additional fee.

The 10 Buick Street Market and Café, located on the ground floor, is both a café and a convenience store. The café offers bagels, soups, salads and sandwiches that can be enjoyed in the adjacent dining area or purchased for take-out. The convenience store stocks many general-purpose items. This residence also has several common areas that can be reserved by guests staying in the building including a rooftop lounge and several small meeting rooms on the lower level. Laundry facilities and vending machines are also available in the building.

Located just steps outside the front door of 10 Buick Street is Boston University’s Fitness and Recreation Center. This 270,000 square foot facility features cardiovascular and weight equipment, two pools, a 35-foot high climbing wall, indoor elevated jogging track, dance theater, seven multi-sport gyms, and courts for racquetball and squash. The facility also includes male and female locker rooms, a juice bar, and amenities such as towel service and equipment check-out. Memberships are available at special rates for conference guests.

The Conference Services Front Desk Staff is available to assist guests with checking in to the residence on their designated arrival date beginning at 3:00pm. Guests must check out prior to 11:00am on their designated departure date. The Front Desk Staff is also available on a daily basis to assist guests with both campus and general information.
