VRS Code: 79139
Ticker: DIEQX

Objective: The investment seeks to provide its shareholders with long-term total return.

Strategy: The fund primarily invests in the equity securities of mid- and large-capitalization U.S. companies. Under normal circumstances, at least 80% of the fund's assets will be invested in equity securities and related investments with similar economic characteristics. It may also invest in companies organized or traded outside the U.S. (or in equivalent shares such as ADRs). Domini evaluates the fund's potential investments against its social and environmental standards based on the businesses in which they engage, as well as on the quality of their relations with key stakeholders.

Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee Note: This fund has a Short-term Redemption Fee of 2.00% for fee eligible shares held less than 30 days.

Who may want to invest:
- Someone who is seeking the potential for long-term share-price appreciation and, secondarily, dividend income.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.
