Tenure-Track Assistant Professor in Cardiovascular Science

The Department of Health Sciences in Boston University’s College of Health and Rehabilitation Sciences: Sargent College is searching for a tenure-track faculty member at the Assistant Professor level in Cardiovascular Biology, broadly defined. The department has undergraduate programs in human physiology, health science, and nutrition, and graduate programs in human physiology and neurobiology (MS and PhD) and nutrition (MS DI). Faculty members have active research programs in muscle biology, cytoskeletal signaling, and neurobiology. Opportunities for collaborations also exist in other research institutes or departments on the Charles River and Medical School campuses, and through university-wide programs in computational biology, cardiovascular biology, and neuroscience. Applicants should have an earned doctorate in physiology, cell biology or a related field, including post-doctoral training. Applicants should have a strong scholarly record with research funding, or potential for funding from extramural sources, as well as a commitment to further develop departmental undergraduate and graduate programs.

Review of applications will commence upon receipt, and will continue until the position is filled. Applicants should submit a letter of application, curriculum vitae, statement of research plans, a teaching statement and names of three individuals who can provide letters of reference to:

Prof. Kathleen Morgan, Search Committee Chair
Department of Health Sciences
College of Health and Rehabilitation Sciences: Sargent College
