E2. No longer on the Common Data Set

E3. Areas in which all or most students are required to complete some course work prior to graduation

The BU Hub, our groundbreaking new general education program, embraces the breadth of disciplines taught at BU, the social and intellectual richness of our residential campus, and our location in a vibrant, urban community to prepare our graduates for today's interconnected, global, and fast-paced world.

You'll gain the knowledge, skills, and habits of mind needed to thrive in your personal, professional, and civic life. Our general education program is integrated with our majors and minors, so you take courses that interest you while exploring areas ranging from global citizenship to scientific and social inquiry to ethical reasoning.

The Hub is robust in its options for experiential learning and co-curriculars, and its signature feature, the BU Cross-College Challenge (XCC), offers an opportunity to work with a team of students and faculty drawn from across our different schools and colleges. The best part? You get to pick your own pathway to discover your passions.
