A positive COVID-19 test, at any time:

You must go into isolation—in designated campus housing (if you are a residential student) or your own off-campus housing (for nonresidential students)—until OK’d by a healthcare provider from Healthway. bu.edu/healthway

Close contact exposure:

You must go into close contact quarantine.
If you have been contacted by a contact tracer because you have been within six feet of someone for 15 minutes or more who has tested positive, you must close contact quarantine for 14 days in either a special quarantine room (if you are a residential student) or your own off-campus housing (for nonresidential students).

In accordance with MA DPH and CDC recommendations, negative test results will not release students from quarantine before 14 days because the incubation period for the virus could be as long as 14 days.

You only need 2 negative test results in total. You still must follow Massachusetts & BU COVID-19 precautions!
