**WHAT DOES MY BADGE COLOR MEAN?**

**RED**
Indicates Isolation because the student has tested positive for COVID-19; a BU Healthway provider will usually contact the student prior to the badge turning red. If after several attempts to contact the student, BU Healthway is not able to reach the student, the badge will turn red so the student is alerted not to leave their residence and to contact BU Healthway.

**ORANGE**
Indicates Quarantine because the student has been in close contact with someone who is positive OR they answered yes to their daily symptom screen. If orange because of daily attestation of symptoms, the status will be changed once the student speaks with someone from BU Healthway.

**YELLOW**
Indicates Overdue for testing or symptom screen, and the badge will indicate due dates.

**GREEN**
Indicates Cleared/Compliant, and the student is up-to-date with testing and symptom screening.

**BLUE**
Indicates no testing or screening is required, as Category 4 students do not come to campus.
