 You can add and remove classes in a semester Planner. The Planner will save the information. During Registration, you can use the Planner to select classes for addition to your Class Schedule. 	
Semester: Fail 2018 Open Cr Title Option Class Seats Hrs /Instructor Type Bid Room Day Start Stop Notes Add additional classes to your Planner	
The planner is just a note pad allowing you to plan your classes for an upcoming semiester. You must still register for classes during the registration period. Classes on your planner may not be available during registration of the reasons.	ion due to cancellation, lack of available seats, or
Generated The Feb 22 14:31:38 2018 Copyright E. Sotton University Information Services and Technology	

Enter Search criteria for the courses you are wanting to add (blue arrows).

To find specific course codes, check out example schedules in the previous attachment, or look at the last pages of this document. Example: Intro to Psycholgy would be:

College = CAS, Dept = PS, Course = 101 and then click "Go"

Courses with a selectable box may be added to your planner, however, if you see a red flag next to the course, that means it is full/closed and you will not be able to register for this course.

If you click on the class, you will be able to read the course description.

Check the box(es) for the courses you would like to add to your planner, then select 'Continue Seach' to search for more courses to select, 'Add to Planner' to add selected courses to your planner.

You will leave the courses for which you would like to register for in your planner, (as demonstrated below) and at Orientation, will be able to discuss them with an advisor.

Advisors are not able to see your planner, thus you will need to pull it up on your phone, write these down for them, or bring a printed copy of what you have planned.

On Friday, you will be given a registration code and will add your courses from your planner to your actual schedule.
