

## Would I like this major?

Though you might be broadly interested in a subject, it can be hard to imagine what that specific major includes. For each program you're considering:

1. Go to [bu.edu/academics/cas/programs](http://bu.edu/academics/cas/programs) and click the corresponding 'BA' link to find a list of required courses for the major.
2. Look up the course on MyBU Student by going to Class Information > Course Catalogue. Search for your intended department and course, then click on the course to expand. You can read the course description here.
3. List each course in the appropriate box below.
