CISE Seminars

C

OCT 15
3:00PM-4:00PM

Alexey Miroshnikov
Research Scientist
Discover Financial Services

I

OCT 22
3:00PM-4:00PM

Archana Venkataraman
Assistant Professor of Electrical
and Computer Engineering
Johns Hopkins University

S

OCT 29
3:00PM-4:00PM

Sayak Ray Chowdhury
BU-CISE Postdoctoral Associate

Postponed.

NOV 5
3:00PM-4:00PM

Dimitra Panagou
Associate Professor of Aerospace
Engineering, University of
Michigan

Special Events

OCT 18
10:00AM-4:30PM

*Artificial Intelligence in
Healthcare: Mitigating
Disparities, Biases &
Misinformation.*

Hosted by Hariri Institute, co-
sponsored by CISE and the BU
School of Public Health.

OCT 20
12:00PM-1:00PM

Lunch & Learn: Internship Insights

Join us for a Lunch and Learn with
Salomón Wollenstein-Betech,
Ph.D. candidate (SE).

*While at CISE, Salomón has
worked at Amazon, PROS, and
MIT-IMB Watson AI Lab.*

ISSO Workshop:

PLANNING AHEAD FOR INTERNSHIPS, EMPLOYMENT, & TRAVEL

October 15, 2021
11:00am-12:00:pm
15 St. Mary's Street, Room 105

Hosted By:
Divsion of Systems Engineering
Center for Information & Systems Engineering

OCT 29
11:30AM-1:30PM
CISE Administrative Office
15 St Mary's St
Room 301

CISE Halloween Trick & Treat

Join us for a spooky lunch!

The event schedule is developing; check the <u>schedule</u> for the latest.

Faculty News

ECE Professors **Ashok** Cutkosky and **Eshed** Ohn-Bar each received a Peter J Levine Career Development Professorship.

Vivek Goyal was awarded a 2021 Outstanding Editorial Board Member Award by the IEEE Signal Processing Society "for outstanding editorial board service for the IEEE Open Journal of Signal Processing."

Alan Liu (ECE, CS) became a CISE faculty affiliate.

Rabia Yazicigil and **David** Starobinski were awarded the NSF Swift Grant for their research on Facilitating Spectrum Access by Noise Guessing. Read more here.

Share news about your research or accolades here.

Boston University's Center for Information & Systems Engineering (CISE) is a university-wide research center focused on deepening and broadening interdisciplinary research in the study and design of intelligent systems with broad societal applications.
