Summer Term I May 21 - June 28
Monday/Wednesday
6:00-9:30PM

Location: SHA 201

COURSE DESCRIPTION

This course unpacks 'sustainable development' by focusing on strategies and best practices at the intersection of zoning and land use patterns with sustainable transportation options. Students learn how to address sustainable development and transportation issues at the local, state, regional, and national levels. Topics covered include stakeholder engagement, climate change preparedness and adaptation, resilience planning, transportation networks, walkability, and equity.
