Course Description

The goal of this course is to provide students with the mathematical and practical background required in the field of data analytics. Probability and statistics concepts will be reviewed as well as the R tool for statistical computing and graphics. Different types of data are investigated along with data summarization techniques and plotting methods. Data populations using discrete, continuous, and multivariate distributions are explored. Sampling methods and errors during measurements and computations are analyzed in the course. String manipulations and data wrangling methods are examined in detail. The concepts covered in the course are demonstrated using R. Laboratory Course.

Course Prerequisites

MET CS 546 - Introduction to Probability and Statistics, or equivalent

Course Grading Policy

The course grade will be based on class participation and in-class labs (20%), in-class quizzes (30%), mid term exam (20%), and final exam (30%).

Student Conduct Code

[Please review the academic conduct code](#)

Tentative Course Schedule

- **Module 1 -- Introduction (1/23, 1/30, 2/6)**
 - Introduction to Statistics
 - Basic Concepts of R -- Data Types and Structures
 - *In class lab and In Class Quiz*
- **Module 2 -- Probability (2/13, 2/21 (Tue))**
 - Probability
 - Conditional Probability
 - Basic Concepts of R -- Programming Constructs
 - *In class lab & In Class Quiz*
- **Module 3 -- Data Description & Visualization (2/27, 3/20)**
 - Univariate Data, Bivariate Data, Multivariate Data
 - Visualization using Base R
 - Using Plotly & ggplot2 for Visualization
 - *In class lab & In Class Quiz*
- **Module 4 -- Distributions (3/27, 4/3)**
 - Discrete Distributions
 - Continuous Distributions
 - *In class lab & In Class Quiz*
- **Module 5 -- Central Limit Theorem, Sampling, Dashboards (4/10, 4/19 (Wed))**
 - Central Limit Theorem
 - Sampling & Resampling Methods
 - Errors
 - RMarkdown and Dashboards
 - *In class lab & In Class Quiz*
- **Module 6 -- Data Wrangling, Strings (4/24, 5/1)**
 - Data Wrangling -- dplyr and tidyr
 - Summarizing, Grouping, and Joining Data
 - Strings and Regular Expressions
 - *In class lab & In Class Quiz*
- **Mid Term Exam (March 13th)**
- **Final Exam (May 8th)**
