

SPACE PHYSICS SEMINAR

CSP Graduate Students

Boston University

My Research Project

Thursday, February 13, 2014

725 Commonwealth Ave.

Refreshments at 3:30pm in CAS 500

Talk begins at 4:00pm in CAS 502

Abstract:

This week the post-comps graduate students in CSP will present a short overview of their research projects. These presentations will be for 5 min. each, with no more than 3 slides per person. These presentations will be given toward the goals of communicating to others what individuals are working on, and to show the broad range of topics in which the CSP is involved.
