

BU Summer School on Plasma Processes in Space Physics

August 6-10, 2012

James Drake, University of Maryland
reconnection and acceleration processes

Benjamin Chandran, UNH
turbulence in the solar wind

Sarbani Basu, Yale
plasma processes in helioseismology

Meers Oppenheim, Boston University
kinetic instabilities in ionosphere

Mary Hudson, Dartmouth
plasma processes in the magnetosphere

Kristina Lynch, Dartmouth
auroral ionospheric plasma processes

Jan Egedal, MIT
experiments in reconnection

Coordinator: Merav Opher
Organization: Despina Bokios
Labs: Ray Fermo

This school is supported by:
