Dear colleagues,

Please see below further updates for the Henry M. Goldman School of Dental Medicine research community on the response to the COVID-19 pandemic.

**Phased Resumption of On-Campus Research**

The University is collecting information about plans for resuming in-person human subjects research at BUMC. Any project that requires interactions with subjects in BMC or BU Medical Campus space must fill out the [Returning Research Staff to BMC or BU Medical Campus form](mailto:Returning Research Staff to BMC or BU Medical Campus form). We have requested guidance on projects conducted off-campus, and will share this information as soon as we receive it.

**PPE Supplies**

Requests for research PPE can be submitted to the [BUMC PPE Supply Center](mailto:BUMC PPE Supply Center). Researchers may also procure PPE independently.

**COVID-19 Screening for GSDM Research Community**

All GSDM researchers are required to undergo COVID-19 screening each day that they will be on campus regardless of where their office or lab is located. Details on this process are provided [here](http://example.com).

**Tracking Time Charged to Grants – May 2020**

Post-Award Financial Operations (PAFO) is requesting assistance in tracking non-productive time charged to grants caused by COVID-19 disruptions. Please see the attached email for details on how to complete this process for May.

**Funding Opportunities**

The [BU Research Support website](http://example.com) includes links to COVID-19 research announcements, and this page is updated on a regular basis.

I encourage you to contact the GSDM Research office if you have questions or if there is any support that you need.
Best regards,
Maria

Maria A. Kukuruzinska, Ph.D.
Professor and Interim Chair
Department of Translational Dental Medicine
Associate Dean for Research
Director, Predoctoral Research Program
Goldman School of Dental Medicine
Director, Head and Neck Cancer Program
