

IAN SUE WING

Associate Professor, Boston University Department of Earth & Environment
675 Commonwealth Ave., Rm. 461, Boston MA 02215
Phone: (617) 353-5741 • Fax: (617) 353-8399 • Email: isw@bu.edu

Professional Experience

2020-present	Professor, Department of Earth & Environment, Boston University
2008-2020	Associate Professor, Department of Earth & Environment, Boston University
2005-2006	Repsol-YPF Energy Fellow, Kennedy School of Government, Harvard University
2002-2008	Assistant Professor, Department of Geography & Environment, Boston University
2002-present	Research Affiliate, Joint Program on the Science & Policy of Global Change, MIT
2001-2002	Postdoctoral Associate, Joint Program on the Science & Policy of Global Change, MIT

Education

1996-2001	Ph.D., Massachusetts Institute of Technology (Technology, Management & Policy)
1994-96	M.Sc., Oxford University (Development Economics)
1993-94	Bachelor of Engineering, Thayer School of Engineering, Dartmouth College
1989-93	B.A., Dartmouth College (Major: Engineering Sciences; Minor: Environmental Studies)

Peer-Reviewed Articles, Book Chapters and Book Contributions

- P1. Jacoby, H.D. and I. Sue Wing (1999). Adjustment Time, Capital Malleability, and Policy Cost, *Energy Journal*, Special Issue: The Costs of the Kyoto Protocol, A Multi-Model Evaluation: 73-92.

Invited Presentations and Lectures

- Energy Systems in a Warming Climate, Yale School of Forestry & Environmental Studies, Feb. 14, 2018; Centro Euro-Mediterraneo sui Cambiamenti Climatici, Venice, April 23, 2018.

2. Integrated Assessment of the Impacts of Climate Change: Reflections and Modest Proposals for Linking Empirical Approaches and IAMs, ENGAGE: Understanding the impacts of climate change on growth and development, Potsdam Institute for Climate Impact Research, June 20-21, 2016.
3. Robust Statistical Emulation of Process Model Crop Yield Responses to Climate Change, Climate change impacts on agriculture: An inter-method comparison, European Commission Joint Research Center, Seville, Spain, June 6-7, 2016.
4. IA-IAV-ESM Workshop: Toward multi-model frameworks for addressing multi-sector dynamics, risk and resiliency, U. Maryland Joint Global Change Research Institute, May 24-26, 2016.
5. Climate Change and US Electricity Demand: Micro-Consistent Aggregation of a Structural Model, ETH Zurich Centre for Energy Policy and Economics Seminar, April 8, 2016.
6. Climate Change and US Electricity Demand: Micro-Consistent Aggregation of a Structural Model, International Energy Workshop, Abu Dhabi, 4 June, 2015.
7. Cities, traffic, and CO₂: A multidecadal assessment of trends, drivers, and scaling relationships, Yale Forestry & Environmental Science Seminar, Feb. 18, 2015.
8. Climate Change and US Electric Power, Harvard Kennedy School Asia Energy Leaders Program, Jun. 17, 2013; International Food Policy Research Institute, Apr 5., 2013; Pennsylvania State University Geosciences Dept., 30 Jan., 2013; American Economic Association 2013 Annual Meeting, San Diego CA, 6 Jan, 2013.
9. Strengthening the Empirical Basis for Climate Policy Models, International Workshop on Innovation in Energy Technologies: What Can We Learn from Patent Data? Venice, 19-20 May, 2011.
10. Sectoral and Regional Disaggregation and Interactions, USEPA-DOE workshop on Improving the Assessment and Valuation of Climate Change Impacts for Policy and Regulatory Analysis, Washington DC, 18-19 Nov., 2010.
11. Panelist, Energy Modeling Forum 24, Washington DC, 24-25 Oct., 2010.
12. The Regional Incidence of U.S. Climate Policy, Environmental Defense Fund Climate Economics Seminar, 7 May, 2009.
13. The Regional Greenhouse Gas Initiative: Emission Leakage and the Effectiveness of Border Adjustments, Arizona State University Economics of Climate Policy Workshop, 19 Mar., 2008.
14. Economic Impacts of California's Greenhouse Gas Emission Target: Quantifying the Implications of Key Uncertainties Dartmouth College Applied Statistics Working Group, 29 Feb., 2008.
15. Using Computable General Equilibrium Models for Climate Policy Analysis, Environmental Defense, New York NY, 1 Feb., 2008.
16. The Regional Greenhouse Gas Initiative: Emission Leakage and the Effectiveness of Border Adjustments, Regulatory Policy Program Seminar, Harvard Kennedy School, 15 Feb., 2008.
17. Discussant, Transport & Public Utilities Group Session at the 2008 Allied Social Science Associations Meeting, New Orleans, LA, Jan. 5, 2008.
18. Discussant, Yale One-Day Environmental Economics Meeting, 16 Nov., 2007.
19. The Regional Greenhouse Gas Initiative: Emission Leakage and the Effectiveness of Border Adjustments, Cornell University Regional Economics Seminar, 14 Nov., 2007.
20. RGGI, Carbon Leakage, and the Influence of Border Measures, Environmental Modeling session at INFORMS Annual Meeting 2007, Seattle WA, 7 Nov., 2007.
21. The Broader Benefits of Infrastructure Investment, OECD/ECMT Research Round Table on Macro-, Meso- and Micro-Infrastructure Planning and Assessment, Boston University, 25-26 Oct., 2007.
22. Technology and Market Assumptions in Renewable Energy Models, Renewable Energy Modeling Analysis Partnership Meeting, U.S. Dept. of Energy, Washington DC, 3 Nov., 2006.
23. Panelist, EPA Workshop on Characterizing, Quantifying, and Communicating Uncertainties: Assessment of the Effects of Global Change on U.S. Regional Air Quality, Research Triangle Park, NC, 1-2 Nov., 2006.
24. The Decline in U.S. Energy Intensity: Its Origins and Implications for Long-Run CO₂ Emission Projections, in "Climate Policy Without Cost: Can Technology Solve the Climate Problem?" An Inter-agency Workshop, Washington DC, Jul. 18, 2006.
25. Explaining Long-Run Changes in the Energy Intensity of the U.S. Economy, Western Economic Association 81st Annual Conference, San Diego CA, Jun. 29-Jul. 3, 2006.
26. Explaining Long-Run Changes in the Energy Intensity of the U.S. Economy, NBER Productivity Lunch, Cambridge MA, Feb. 7, 2006.

27. Induced Technical Change: Firm Innovatory Responses to Environmental Policy, Yale Environmental Economics Seminar, Feb. 28, 2007.
28. Induced Technical Change: Firm Innovatory Responses to Environmental Policy, Rensselaer Polytechnic Institute Economics Dept., Apr. 24, 2006.
29. Induced Technical Change: Firm Innovatory Responses to Environmental Policy, Ohio State University Agricultural Economics Dept., Apr. 20, 2006.
30. Induced Technical Change: Firm Innovatory Responses to Environmental Policy, Dartmouth College Workshop on Technical Change and the Environment, Mar. 25, 2006.
31. Discussant, NBER Environmental Economics Working Group Meeting, Cambridge MA, Apr. 7-8, 2006.
32. New Developments in Macroeconomic Modeling Using Computational General Equilibrium (CGE) Models for Climate Change Studies, California Energy Commission, Sacramento CA, Feb. 9, 2006.
33. Discussant, IAEE Session at the 2006 Allied Social Science Associations Meeting, Boston MA, Jan. 6-8, 2006.
34. Discussant, EPA/WRI/JED/SAGE Colloquium on Socioeconomic Drivers of Greenhouse Gases, Washington DC, Sep. 29-30, 2005.
35. The role of technological change in reducing energy intensity, NCCR Climate Symposium 2005: Interfaces between Climate and Economic Dynamics, Interlaken, Switzerland, Mar. 3-5, 2005.
36. Using CGE Models for Economy-wide Policy Analysis, MIT Laboratory for Energy and the Environment, Sep. 13 and 20, 2006.
37. Using CGE Models for Economy-wide Policy Analysis, MIT Laboratory for Energy and the Environment, Oct. 11, 2005.
38. Representing Induced Technical Change in Climate Policy Models. Energy Modeling Forum Climate Change Impacts and Integrated Assessment Meeting, Snowmass CO, Aug. 5-8, 2003.
39. Induced Technical Change and the Cost of Climate Policy, in Representing Technological Change in Models for Climate Policy Analysis: Lessons from Different Approaches, AERE Session at the 2004 Allied Social Science Associations Meeting, San Diego CA, Jan. 3, 2004.
40. Induced Technical Change and the Cost of Climate Policy, University of Colorado Environmental and Resource Economics Workshop, Boulder CO, Jul. 17-18, 2003.
41. Induced Technical Change and the Cost of Climate Policy, Center for the Integrated Study of the Human Dimensions of Global Change, Carnegie Mellon University, Pittsburgh PA, Mar. 7, 2003.
42. Cost Reduction in Solar Photovoltaics: David vs. Goliath or Bambi vs. Godzilla? Hewlett Foundation Workshop on Learning-by-Doing in Energy Technologies, Resources for the Future, Washington DC, June 17-18, 2003.
43. Climate Change: The Current Policy Landscape. Luncheon Meeting of the U.S. Association for Energy Economics New England Chapter, Cambridge MA, June 6, 2002.

Presentations and Papers at Conferences and Workshops

1. Robust Amplification of Future Energy Consumption Growth due to Climate Change, International Energy Workshop 2017, College Park, MD, 13 July, 2017.
2. Climate Change and US Electricity Demand: Micro-Consistent Aggregation of a Structural Model, International Energy Workshop 2015, Abu Dhabi, 4 June, 2015.
3. Regional Electricity Market Impacts of GHG Emission Limits: Evidence from a Bottom-Up Top-Down Model, INFORMS Annual Meeting 2011, Charlotte NC, Nov. 16, 2011.
4. The Changing Regional Structure of U.S. Carbon Dioxide Emissions, 1963-2002 (with James Baldwin), 56th Annual North American Meeting of the Regional Science Association International, New York NY, Nov. 20, 2008.
5. Regional Adjustment to Rising Energy Costs, 56th Annual North American Meeting of the Regional Science Association International, New York NY, Nov. 21, 2008.
6. Understanding the Drivers of U.S. Carbon Dioxide Emissions: A Regional Approach (with James Baldwin), 56th Annual North American Meeting of the Regional Science Association International, New York NY, Nov. 21, 2008.
7. A Spatial Perspective on the 2004 Election, 54th Annual North American Meeting of the Regional Science Association International, Savannah GA, Nov. 9, 2007.

8. Limiting CO₂ Emissions in a Federal System: Understanding and Mitigating the Cost of U.S. Climate Policy at the State Level, 53rd Annual North American Meeting of the Regional Science Association International, Toronto, Canada, Nov. 17-18, 2006.
9. Limiting CO₂ Emissions in a Federal System: Understanding and Mitigating the Cost of U.S. Climate Policy at the State Level, ECOMOD International Conference on Regional and Urban Modeling, Free University of Brussels, June 1-3, 2006.
10. A Spatial Perspective on the 2004 Election, Midwest Political Science Association Meeting, Chicago IL, Apr. 21-23, 2006.
11. Absolute vs. Intensity-Based Limits for CO₂ Emission Control, Performance Under Uncertainty, David Bradford Memorial Conference on the Design of Climate Policy, Venice, Italy, Jul. 22-23, 2005.
12. The Synthesis of Bottom-Up and Top-Down Approaches to Climate Policy Modeling: Electric Power Technologies and the Cost of CO₂ Emission Limits, 11th Annual Conference on Computing in Economics and Finance, Washington DC, 24 June 2005.
13. The Synthesis of Bottom-Up and Top-Down Approaches to Climate Policy Modeling: Electric Power Technologies and the Cost of CO₂ Emission Limits, Environment and Development Workshop, Rockefeller Center, Dartmouth College, Mar. 28, 2005.
14. The Energy Intensity of U.S. Production: Sources of Long-Run Change. IAEE Session at the 2003 Allied Social Sciences Association Meeting, Washington DC, Jan. 4, 2003.
15. Primary Aluminum Production: Projected Greenhouse Gas Emissions and the Costs of Climate Policy. 99th Annual Meeting of The Minerals, Metals and Materials Society, San Diego CA, March 3, 1999.

Conferences and Workshops Organized

- O1. Representing Technological Change in Models for Climate Policy Analysis: Lessons from Different Approaches, AERE Session at the Allied Social Science Associations Meeting, San Diego, Jan. 3, 2004.
- O2. Workshop on Technical Change and the Environment, Dartmouth College, Mar. 25-26, 2006.
- O3. Workshop on "Climate Adaptation: Improving the Connection Between Empirical Research and Integrated Assessment Models", National Bureau of Economic Research, Cambridge, May 17-18, 2012.
- O4. Science Steering Group, IA-IAV-ESM Workshop, U.S. Global Change Research Program Interagency Group on Integrative Modeling, U. Maryland Joint Global Change Research Institute, May 24-26, 2016.
- O5. Snowmass XXIV: Workshop on Analyses of Multi-Sector Energy and Environmental Dynamics, Biological and Environmental Research U.S. Dept of Energy Office of Science, Snowmass CO, July 18-20, 2018.

Panel and Advisory Board Memberships

- A1. Integrated Assessment for Climate Change Research Panel, U.S. Department of Energy, Washington DC, Jun. 2004.
- A2. Second Generation Model Advisory Panel, Science Advisory Board, U.S. Environmental Protection Agency, 2004-2006.
- A3. Renewable Energy Modeling Analysis Partnership, U.S. Department of Energy, 2005-2007.
- A4. National Research Council Panel on the Health, Environmental, and Other External Costs and Benefits of Energy Production and Consumption, 2008-2010.
- A5. National Science Foundation Decision, Risk and Management Sciences Review Panel, 2011-2013.
- A6. Intergovernmental Panel on Climate Change Fifth Assessment Report Working Group III, contributing author (Chapter 6: "Assessing Transformation Pathways")
- A7. 2013 National Climate Assessment Report, lead author (Chapter 27: "Mitigation").
- A8. Mitigation Indicators Technical Team for the US Global Change Research Program National Climate Assessment, 2013-2015.
- A9. Advisory Panel on the Economy-wide Modeling of the Benefits and Costs of Environmental Regulation, U.S. Environmental Protection Agency, 2015-2017.
- A10. U.S. Dept. of Energy, Energy-Water Nexus Knowledge Discovery Framework Experts Panel, Jun. 13, 2017.

Grants and Research Awards

- F1. Representing Endogenous Technological Change in Climate Policy Models: General Equilibrium Approaches. U.S. Dept. of Energy Office of Science (BER), 2002-2005, \$321,000.

- F2. Empirical and Computational Investigations of International Technology Spillovers: Effects on Income Convergence, Greenhouse Gas Emissions, and the International Transmission of Mitigation Costs, U.S. Dept. of Energy Office of Science (BER), 2006-2008, \$323,000.
- F3. General Equilibrium Analyses of California's Global Warming Solutions Act of 2006, California Energy Commission, 2007-2008, \$334,129.
- F4. Crops, Climate, Canals and the Cryosphere in Asia - Changing Water Resources around the Earth's Third Pole (PI: Steve Frolking, UNH), National Science Foundation (Water Sustainability & Climate, Category 3), 2010-2013, \$224,014.
- F5. Research in Integrated Assessment: Inter-Model Comparison, Development, Testing, and Diagnostics (PI: John Weyant, Stanford), U.S. Dept. of Energy Office of Science (BER), 2010-2013, \$137,891 (total award: \$6M).
- F6. The Impacts of Climate Change on the U.S. Economy: An Interregional Computable General Equilibrium Approach (PI: Robert Beach, Research Triangle Institute), U.S. Environmental Protection Agency Climate Change Division, Dec. 2011-Jun. 2012, \$93,694.
- F7. What are Sustainable Climate Risk Management Strategies? (PI: Klaus Keller, Pennsylvania State University), National Science Foundation (Sustainability Research Networks), 2012-2017, \$199,991 (total award: \$12M).
- F8. Research in Integrated Assessment: Inter-Model Comparison, Development, Testing, and Diagnostics—Renewal (PI: John Weyant, Stanford), U.S. Dept. of Energy Office of Science (BER), 2013-2016, \$156,028 (total award: \$4M).
- F9. A Multi-Model, Multi-Scale Research Program in Stressors, Responses, and Coupled Systems Dynamics at the Energy-Water-Land Nexus (PI: John Weyant, Stanford), U.S. Dept. of Energy Office of Science (BER), 2016-2020, \$227,000 (total award: \$3.6M).
- F10. Understanding Multistressor and Multiscale Drivers of Feedbacks, Cascading Failures, and Risk Management Pathways within Complex MSD Systems (PI: Karen Fisher-Vanden, Pennsylvania State University), U.S. Dept. of Energy Office of Science (BER), 2021-2026, \$537,000.
- F11. Climate change and calorie crops - global impacts, adaptation and implications for US agricultural communities: Collaborative research with Columbia University and Boston University, USDA National Institute of Food and Agriculture, 2021-2025, \$650,000.
- F12. Large-scale CoPe: Coastal Hazards, Equity, Economic prosperity, and Resilience – CHEER (PI: Rachel Davidson, University of Delaware), National Science Foundation, 2022-2027, \$1.3M (total award: \$10.7M).

Editorial Boards

Energy Economics, Associate editor, 2006-2012.

Environmental and Resource Economics, Co-Editor, 2013-2021.

Refereeing

Journal of Environmental Economics and Management, Land Economics, The Energy Journal, Energy Economics, Resource and Energy Economics, Journal of Applied Economics, Energy Policy, Climatic Change, Ecological Economics, The B.E. Journals in Economic Analysis and Policy, Journal of the Japanese and International Economies, Journal of Policy Analysis and Management, National Science Foundation (Economics, Geography & Regional Science, Social and Behavioral Sciences, Decision, Risk & Management Sciences), NWO/Netherlands Organization for Scientific Research, Pew Center on Global Climate Change, Proceedings of the National Academy of Sciences, European Economic Review, The Economic Journal, European Research Council.

Professional Memberships

American Economic Association (AEA), International Association for Energy Economics (IAEE), Association of Environmental and Resource Economists (AERE)

Teaching

- 1. Fundamentals of International Economics (CAS IR292), International Relations Dept.
- 2. Environmental Policy Analysis and Modeling (CAS EE545), Dept. of Earth & Environment
- 3. Resource Economics (CAS EE460/660), Dept. of Earth & Environment
- 4. U.S. Environmental Policy (CAS EE528), Dept. of Earth & Environment

5. Data, Models and Analysis in Earth & Environment (CAS EE270), Dept. of Earth & Environment
6. Climate Change Policy Analysis and Modeling (CAS GE512), Dept. of Earth & Environment

Theses Supervised

- | | |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2004 | L. Seifert, MA International Relations & Environmental Policy, Boston University |
| 2005 | B. Strode, Work for Distinction, BA Environmental Analysis & Policy, Boston University |
| | A. Karakowka Richmond, Ph.D. Geography, Boston University (3 rd reader) – now Professor of Geography, U.S. Military Academy West Point |
| 2006 | A. Gencer, Ph.D. Geography, Boston University (3 rd reader) |
| | A. Lempp, Ph.D. Economics, University of Paris I (2 nd reader) |
| 2008 | D. Salem, MA International Relations & Environmental Policy |
| | J. Baldwin, Ph.D. Geography, Boston University (1 st reader) – now Senior Lecturer in Earth & Environment, Boston University |
| 2010 | E. Lanzi, Ph.D. Economics, University of Venice C' Foscari (external committee member) – now Senior Economist, OECD Environment Directorate |
| 2011 | K. Schu Daenzer, Ph.D. Geography, Boston University (supervisor) |
| 2014 | J. Winkler, Ph.D. Geography, Boston University (supervisor) |
| 2015 | J. Woollacott, Ph.D. Geography, Boston University (supervisor) |
| 2016 | C. Gately, Ph.D. Geography, Boston University (supervisor) |
| 2017 | M. Mistry, PhD. Science and Management of Climate Change, University of Venice Ca' Foscari (external committee member) – now Assistant Professor, London School of Hygiene and Tropical Medicine |
| 2022 | A. Pollack, PhD. Earth & Environment, Boston University (1 st reader) |
| In progress | Y. Romitti (supervisor), I. Kieffer (supervisor), N. Schneider (supervisor), N. Pape (supervisor), J. Horing (Stanford University Management Science & Engineering, external committee member) |

Postdoctoral Supervision

- | | |
|---------|-----------------------------------------------------------------------------------------------------------------------------|
| 2012-14 | E. De Cian (Marie Curie Fellow, Fondazione Eni Enrio Mattei – now Professor of Economics, University of Venice Ca' Foscari) |
| 2015-16 | G. Akin-Olcum (Boston University – now Senior Economist, Environmental Defense Fund) |

Departmental and University Service

- Curriculum development for courses GE309, GE420/620, GE425/625 and GE460/660, Dept. of Geography & Environment, 2003-2005
- Director of Undergraduate Studies, Dept. of Geography & Environment, 2006-2009
- Member, search committee for environment and development position, Dept. of Geography & Environment, 2007-2008
- Social Science Curriculum Committee, BU College of Arts & Sciences, 2010-2013(chair, 2011-2012)
- Director of Graduate Studies, BU Dept. of Geography & Environment, Sep. 2011-2012
- Member: Departmental Curriculum Committee, BU Dept. of Earth & Environment, 2013-14
- Search chair: Human Dimensions of Global Change, BU Dept. of Earth & Environment, 2013-14
- Search chair: Human Dimensions of Global Change, BU Dept. of Earth & Environment, 2015-16
- Associate Chair for Curriculum, BU Dept. of Earth & Environment, 2016-17

Honors and Awards

- Rhodes Scholarship, 1994-1996 (Mansfield College)

Consulting

The Brattle Group, Battelle Memorial Institute, RTI International, US Geological Survey, Industrial Economics Inc., Organization of Economic Cooperation and Development, The World Bank.
