

# ESSENTIALS OF ECONOMICS IN CONTEXT

By Neva Goodwin, Jonathan M. Harris, Pratistha Joshi  
Rajkarnikar, Brian Roach, and Tim Thornton

## CONTENTS

### PART ONE: The Context for Economic Analysis

#### **Chapter 0: Economics and Well-Being**

##### **Time Trend Graphs**

1. U.S. Gross Domestic Product per Capita
2. U.S. Unemployment Rate
3. U.S. Inflation Rate
4. U.S. Income Inequality
5. Gender-Based Earnings Inequality
6. Global International Trade
7. Global Carbon Dioxide Emissions

##### **Bar Graphs: International Comparisons**

8. GDP per Capita
9. Unemployment Rate
10. Inflation Rate
11. Trade Balance
12. Income Inequality (Gini coefficient)
13. Absolute Poverty
14. Educational Performance
15. Life Expectancy
16. Carbon Dioxide Emissions per Capita

#### **Chapter 1: Economic Activity in Context**

1. Our Starting Point
2. The Goals of an Economy
  - 2.1 Traditional Economic Goals
  - 2.2 Moving Beyond the Traditional Goals
3. The Issues That Define Economics
  - 3.1 The Four Essential Economic Activities
  - 3.2 The Three Basic Economic Questions
4. Economic Tradeoffs
  - 4.1 Society's Production Possibilities Frontier
  - 4.2 Tradeoffs Over Time

#### **Chapter 2: Foundations of Economic Analysis**

1. Our Tools for Understanding
  - 1.1 Empiricism

- 1.2 Rationalism
- 1.3 Theory and Evidence
- 2. Different Economic Theories: Examples of Two Basic Models
  - 2.1 The Basic Neoclassical Model
  - 2.2 The Contextual Model
- 3. The Role of Markets
  - 3.1 The Meaning of Markets
  - 3.2 The Institutional Requirements of Markets
  - 3.3 Infrastructure for Flow of Goods and Information
  - 3.4 Types of Markets
  - 3.5 The Advantages and Limitations of Markets
  - 3.6 Assessing Market Outcomes

## **PART TWO: Microeconomic Analysis: Consumption, Production, and Markets**

### **Chapter 3: Supply and Demand**

- 1. Introduction to the Microeconomic Market Model
- 2. The Theory of Supply
  - 2.1 The Supply Schedule and Supply Curve
  - 2.2 Changes in Supply
- 3. The Theory of Demand
  - 3.1 The Demand Schedule and Demand Curve
  - 3.2 Changes in Demand
- 4. The Theory of Market Adjustment
  - 4.1 Surplus, Shortage, and Equilibrium
  - 4.2 Market Forces and Other Considerations
  - 4.3 Shifts in Supply and Demand
- 5. Elasticity
  - 5.1 The Price Elasticity of Demand
  - 5.2 Measuring Elasticity
  - 5.3 Elasticity and Revenues
  - 5.4 Price Elasticity of Supply
  - 5.5 Income Elasticity of Demand
- 6. Topics in Market Analysis
  - 6.1 Real-World Prices
  - 6.2 Markets and Equity
  - 6.3 Scarcity and Inadequacy

### **Chapter 4: Consumption and Decision Making**

- 1. Historical Perspectives on Economic Behavior
  - 1.1 Classical Economic Views of Human Nature
  - 1.2 The Neoclassical Model
- 2. The Neoclassical Theory of Consumer Behavior
  - 2.1 Consumer Sovereignty
  - 2.2 The Budget Line

- 2.3 Consumer Utility
- 3. Modern Perspectives on Consumer Behavior
  - 3.1 Behavioral Economics and Rationality
  - 3.2 The Role of Time, Emotions, and Other Influential Factors
  - 3.3 Consumer Behavior in Contextual Economics
- 4. Consumption in Social Context
  - 4.1 Social Comparisons
  - 4.2 Advertising
  - 4.3 Private versus Public Consumption
  - 4.4 Affluenza and Voluntary Simplicity
- 5. Consumption in an Environmental Context
  - 5.1 The Link Between Consumption and the Environment
  - 5.2 Green Consumerism
- 6. Policy Inferences from our Model of Consumer Behavior
  - 6.1 Predictable Irrationality and Nudges
  - 6.2 Consumption and Public Policy

## **Chapter 5: Production**

- 1. An Overview of Production
  - 1.1 The Goals of Production
  - 1.2 An Economic Perspective on Production
- 2. Types of Production Costs
  - 2.1 Fixed Versus Variable Costs
  - 2.2 Accounting Versus Economic Costs
  - 2.3 Private Versus External Costs
- 3. The Production Function
  - 3.1 Thinking About Inputs and Outputs
  - 3.2 Graphing Production Functions
  - 3.3 Production in the Short Run
- 4. Production Costs
  - 4.1 Production Costs in the Short Run
  - 4.2 Production Costs in the Long Run
  - 4.3 Production Process Choice

## **Chapter 6: Market Structure**

- 1. Understanding Market Power and Competition
  - 1.1 The Business Perspective on Competition and Market Power
  - 1.2 The Consumer Perspective on Competition and Market Power
  - 1.3 The Citizen Perspective on Competition and Market Power
  - 1.4 The Economists' Perspective on Competition and Market Power
- 2. Perfect Competition
  - 2.1 The Conditions of Perfect Competition
  - 2.2 Profit Maximization under Perfect Competition
  - 2.3 Losses and Exit
- 3. Pure Monopoly: One Seller
  - 3.1 The Conditions of Monopoly

- 3.2 Examples of Monopoly
- 3.3 Profit Maximization for a Monopolist
- 3.4 Monopoly and Inefficiency
- 4. Monopolistic Competition
  - 4.1 The Conditions of Monopolistic Competition
  - 4.2 Profit Maximization with Monopolistic Competition
  - 4.3 Monopolistic Competition and Long-Run Efficiency
- 5. Oligopoly
  - 5.1 Market Structure of an Oligopolistic Industry
  - 5.2 Oligopoly and the Behavior of Firms
  - 5.2 Examples of Oligopoly
- 6. Market Power, Efficiency and Equity
  - 6.1 Market Inefficiencies
  - 6.2 Market Power and Politics

### **Chapter 7: Markets for Labor**

- 1. Economic Theory of Labor Markets
  - 1.1 The Firm's Decision to Hire Labor
  - 1.2 The Individual's Decision to Supply Labor
  - 1.3 The Market Supply for Labor
  - 1.4 Market Demand Curves
  - 1.5 Market Equilibrium
- 2. Explaining Variations in Wages
  - 2.1 Wage Variations in the Neoclassical Labor Model
  - 2.2 Social Norms, Wage Regulations, and Bargaining Power
  - 2.3 Efficiency Wages and Dual Labor Markets
  - 2.4 Discrimination
- 3. Special Issues of the 21<sup>st</sup> Century
  - 3.1 Labor Force Participation Rates
  - 3.2 Labor Market Flexibility
  - 3.3 Labor Markets and Immigration
  - 3.4 Cooperatives
  - 3.5 Work-Life Balance
  - 3.6 Technological Change, Productivity, Work and Leisure
- 4. Labor Markets, Inequality, and Power

## **PART THREE: Macroeconomic Theory and Policy**

### **Chapter 8: Macroeconomic Measurement**

- 1. An Overview of National Accounting
- 2. Gross Domestic Product
  - 2.1 Defining GDP
  - 2.2 Measuring GDP
  - 2.3 Nominal vs. Real GDP
- 3. Key Macroeconomic Indicators: GDP Growth, Inflation, and Unemployment

- 3.1 GDP Growth
- 3.2 Price Indexes and Inflation Rates
- 3.3 Measuring Employment and Unemployment
- 4. Alternative Measures of Economic Well-Being
  - 4.1 Why GDP is not a Measure of Well-Being
  - 4.2 A Broader View of National Income Accounting

## **Chapter 9: Economic Fluctuations and Macroeconomic Theory**

- 1. The Business Cycle
  - 1.1 Stylized Facts
  - 1.2 A Closer Look at Unemployment
  - 1.3 A Closer Look at Inflation
  - 1.4 A Stylized Business Cycle
- 2. Macroeconomic Theories
  - 2.1 Simplifying Assumptions
  - 2.2 The Classical Model
- 3. The Great Depression and Keynes
  - 3.1 The Keynesian Theory
  - 3.2 Persistent Unemployment and The Keynesian Labor Market Theory
  - 3.3 The Multiplier
  - 3.4 Comparing Classical and Keynesian Views
- 4. Macroeconomic History and Recent Developments
  - 4.1 The Crisis of the 1970s and Retreat From Keynesian Economics
  - 4.2 Macroeconomics for the Twenty-First Century

## **Chapter 10: Fiscal Policy**

- 1. The Government's Budget
  - 1.1 Understanding Taxes
  - 1.2 Federal Revenue and Outlays
- 2. The Role of Government Spending and Taxes
  - 2.1 A Change in Government Spending
  - 2.2 Taxes and Transfer Payments
  - 2.3 The Circular Flow with Government Spending and Taxes
  - 2.4 Expansionary and Contractionary Fiscal Policy
  - 2.5 Automatic Stabilizers and Discretionary Policy
- 3. Policy Issues
  - 3.1 Crowding Out and Crowding In
  - 3.2 Different Multiplier Effects
- 4. Debt and Deficits
  - 4.1 Deficits and the National Debt
  - 4.2 Government Debt: Potential Problems
  - 4.3 The Balanced Budget Debate
  - 4.4 Deficit Projections and Policy Responses

## **Chapter 11: Money and Monetary Policy**

- 1. Understanding Money
  - 1.1 Why Money?

- 1.2 What is Money?
- 1.3 Types of Money
  - 1.4 Measures of Money
- 2. The Banking System
  - 2.1 Commercial Banks
  - 2.2 The Federal Reserve System
- 3. How Banks Create Money
  - 3.1 Commercial banks and Money Creation
  - 3.2 How the Fed Creates Money
  - 3.3 Other Monetary Policy Tools
- 4. The Theory of Money, Interest Rates, and Aggregate Demand
  - 4.1 The Federal Funds Rate and Other Interest Rates
  - 4.2 Interest Rates and Investment
  - 4.3 Monetary Policy and Aggregate Demand
  - 4.4 The Liquidity Trap and Credit Rationing
- 5. Theories of Money and Policy Complications
  - 5.1 The Quantity Equation
  - 5.2 Competing Theories
  - 5.3 Policy Complications

## **Chapter 12: Aggregate Supply, Aggregate Demand, and Inflation: Putting it All Together**

- 1. Aggregate Demand and Inflation
  - 1.1 The Aggregate Demand (*AD*) Curve
  - 1.2 Shifts of the *AD* Curve: Spending and Taxation
  - 1.3 Shifts of the *AD* curve: Monetary Policy
- 2. Capacity and the Aggregate Supply Curve
  - 2.1 The Aggregate Supply (*AS*) Curve
  - 2.2 Shifts of the *AS* Curve: Inflationary Expectations
  - 2.3 Shifts of the *AS* curve: Supply Shocks
- 3. Putting the AS/AD Model to Work
  - 3.1 An Economy in Recession
  - 3.2 An Overheated Economy
  - 3.3 Stagflation
  - 3.3 A Hard Line Against Inflation
  - 3.4 Technology and Globalization
- 4. Competing Theories
  - 4.1 Classical Macroeconomics
  - 4.2 Keynesian Macroeconomics

## **PART FOUR: The Global Economy, Development, and Sustainability**

### **Chapter 13: Financial Instability and Economic Inequality**

- 1. The 2007-2008 Crisis
  - 1.1 Entering the Crisis

- 1.2 The Collapse of the Housing Bubble and Impacts of the Crisis
- 1.3 Policy Responses for Recovery
- 2. Understanding Financial Instability
  - 2.1 The Financial System
  - 2.2 Deregulation and Financialization
  - 2.3 Theories of Financial Instability
- 3. The Creation of an Unequal Society
  - 3.1 Trends in Inequality
  - 3.2 Causes of Rising Inequality
  - 3.3 Consequences of Inequality
- 4. Policies to Promote Financial Stability and Greater Equality

#### **Chapter 14: The Global Economy and Policy**

- 1. Trade, Specialization, and Productivity
- 2. Gains from Trade
  - 2.1 The Theory of Comparative Advantage
  - 2.2 Factor-Price Equalization
  - 2.3 Other Benefits of Free Trade
- 3. Drawbacks of Free Trade
  - 3.1 Vulnerability and Lock-In
  - 3.2 Power Differentials
  - 3.3 Trade and the Environment
  - 3.4 Inequality and other Social Impacts of Trade
- 4. Globalization and Policy
  - 4.1 Patterns of Trade
  - 4.2 National Trade Policies
  - 4.3 International Trade Agreements
- 5. Globalization and Macroeconomics
  - 5.1 The Trade Balance: Completing the Macroeconomic Picture
  - 5.2 International Finance
  - 5.3 The Balance of Payments

#### **Chapter 15: How Economies Grow and Develop**

- 1. Economic Growth and Development
  - 1.1 Standard Economic Growth Theory
  - 1.2 Experiences of Economic Growth Around the World
  - 1.3 Defining Poverty
- 2. Economic Development in the World Today
  - 2.1 Early Experiences and Theories of Development
  - 2.2 A Second Wave of Development Theory
- 3. Twenty-First Century Reconsiderations of the Sources of Economic Growth
- 4. Inequality and Development
  - 4.1 International Data on Inequality
  - 4.2 Inequality and the Kuznets Hypothesis
  - 4.3 Inequality and Economic Well-Being
- 5. Recent Perspectives and Sustainable Development Goals

## 6. Different Kinds of Economies

### **Chapter 16: Economics of the Environment**

1. Overview of Global Environmental Issues
  - 1.1 Global Population
  - 1.2 Nonrenewable Resources
  - 1.3 Renewable Resources
  - 1.4 Pollution and Wastes
  - 1.5 Climate Change: Science and Impacts
2. Externalities
  - 2.1 Negative Externalities
  - 2.2 Positive Externalities
3. Managing Common Property Resources
  - 3.1 Defining Common Property Resources and Public Goods
  - 3.2 Management of Common Property Resources
  - 3.3 Management of Public Goods
4. Economic Growth and the Environment
  - 4.1 The Environmental Kuznets Curve Hypothesis
  - 4.2 Does Protecting the Environment Harm Employment and Economic Growth?
  - 4.3 Economic Perspectives on the Transition to a Sustainable Economy
5. Policies for Sustainable Development
  - 5.1 Defining Sustainability
  - 5.2 Green Taxes and Subsidy Reform
  - 5.3 Green Macroeconomic Policies
6. Climate Change: Economics and Policy
  - 6.1 Economic Analysis of Climate Change
  - 6.2 Climate Change Policy
7. Final Thoughts
