

MACROECONOMICS IN CONTEXT

FOURTH EDITION

By Neva Goodwin, Jonathan M. Harris, Julie A. Nelson,
Pratistha Joshi Rajkarnikar, Brian Roach, and Mariano Torras

CONTENTS

Part I: The Context for Economic Analysis

Chapter 0: Macroeconomics and Well-Being

Chapter 1: Economic Activity in Context

1. What is Macroeconomics About?
2. Macroeconomic Goals
 - 2.1 Good Living Standards
 - 2.2 Stability and Security
 - 2.3 Sustainability
3. The Issues that Define Economics
 - 3.1 The Four Essential Economic Activities
 - 3.2 The Three Basic Economic Questions
4. Macroeconomics in Context
 - 4.1 The Classical Period
 - 4.2 The Great Depression and Keynes
 - 4.3 The Crisis of the 1970s and Retreat from Keynesian Economics
 - 4.4 Macroeconomics for the Twenty-First Century

Chapter 2: Foundations of Economic Analysis

1. Our Tools for Understanding
 - 1.1 Empirical Investigation
 - 1.2 Theoretical Investigation
2. Economic Tradeoffs
 - 2.1 Society's Production-Possibilities Frontier
 - 2.2 Tradeoffs Over Time
3. Different Economic Models
 - 3.1 The Basic Neoclassical Model
 - 3.2 The Contextual Model
4. The Role of Markets
 - 4.1 The Meaning of Markets

- 4.2 The Institutional Requirements of Markets
- 4.3 The Advantages and Limitations of Markets
- Appendix: Graphing Review

Chapter 3: Supply and Demand

- 1. Markets and Macroeconomics
 - 1.1 Differing Perspectives of Markets
 - 1.2 Characteristics of Markets
- 2. The Theory of Supply
 - 2.1 The Supply Schedule and Curve
 - 2.2 Changes in Supply
- 3. The Theory of Demand
 - 3.1 The Demand Schedule and Curve
 - 3.2 Changes in Demand
- 4. The Theory of Market Adjustment
 - 4.1 Surplus, Shortage, and Equilibrium
 - 4.2 Shifts in Supply and Demand
 - 4.3 Elasticity
- 5. Macroeconomics and the Dynamics of Real-World Markets
 - 5.1 When Price Adjustments are Slow
 - 5.2 When Prices Swing Too Much: Market Instability
 - 5.3 From Microeconomics to Macroeconomics

Part II: Macroeconomic Basics

Chapter 4: Macroeconomic Measurement: The Current Approach

- 1. An Overview of National Accounting
 - 1.1 Conventions about National Accounting Sectors
 - 1.2 Conventions about Capital Stocks
 - 1.3 Conventions about Investment
- 2. Defining Gross Domestic Product
- 3. Measuring Gross Domestic Product
 - 3.1 The Product Approach
 - 3.2 The Spending Approach
 - 3.3 The Income Approach
- 4. Growth, Price Changes, and Real GDP
 - 4.1 Nominal vs. Real GDP
 - 4.2 Calculating Real GDP
 - 4.3 Price Indexes and Inflation Rates
 - 4.4 Calculating GDP Growth Rates
- 5. Savings and Investment
- Appendix: Chained Dollar Real GDP

Chapter 5: Macroeconomic Measurement: Environmental and Social Dimensions

1. Why GDP Is Not a Measure of Well-Being
2. A Broader View of National Income Accounting
 - 2.1 Satellite Accounts
 - 2.2 Measuring Well-Being
 - 2.3 The Genuine Progress Indicator (GPI)
 - 2.4 The Better Life Index (BLI)
 - 2.5 The Human Development Index (HDI)
 - 2.6 Other National Accounting Alternatives
3. Measuring Household Production
 - 3.1 Measuring Household Labor
 - 3.2 Methods of Valuing Household Production
4. Accounting for the Environment
 - 4.1 Methods of Valuing the Environment
 - 4.2 Monetary Valuation of Environmental Factors
5. Conclusion: Measuring Economic Well-Being

Chapter 6: The Structure of the United States Economy

1. The Three Major Productive Sectors in an Economy
 - 1.1 A Quick Review of Categories
 - 1.2 The Relative Size of the Output Sectors in the United States
 - 1.3 Historical Trends and Global Comparisons
2. The Primary Sector in the United States
 - 2.1 The Food System
 - 2.2 The Energy System
3. The Secondary (Industrial) Sector in the United States
 - 3.1 Manufacturing
 - 3.2 Construction
 - 3.3 Rising Productivity in the Secondary Sector
4. The Tertiary (Service) Sector
 - 4.1 The Growth of the Tertiary Sector
 - 4.2 Analyzing the Tertiary Sector by Sub-Categories
 - 4.3 Retail Services
 - 4.4 Finance and Financialization
 - 4.5 Human Services: Health
 - 4.6 Human Services: Education
5. Concluding Thoughts

Chapter 7: Employment, Unemployment, and Wages

1. Employment and Unemployment
 - 1.1 Measuring Employment and Unemployment
 - 1.2 The Unemployment Rate
 - 1.3 Discouraged Workers and Underemployment
 - 1.4 Labor Force Participation
2. A Closer Look at Unemployment

- 2.1 Types of Unemployment
- 2.2 Patterns of Unemployment
- 3. Theories of Employment, Unemployment, and Wages
 - 3.1 The Classical Theory
 - 3.2 Alternative Theories of Labor Markets
 - 3.3 Policy Responses
- 4. Special Issues of the 21st Century
 - 4.1 Jobs and Technological Change
 - 4.2 Some Future Possibilities

Part III: Macroeconomic Theory and Policy

Chapter 8: Aggregate Demand and Economic Fluctuations

- 1. The Business Cycle
 - 1.1 What Happens During the Business Cycle
 - 1.2 A Stylized Business Cycle
 - 1.3 The Downturn Side of the Story
- 2. Macroeconomic Modeling
 - 2.1 Simplifying Assumptions
 - 2.2 Output, Income, and Aggregate Expenditure
 - 2.3 The Problem of Leakages
 - 2.4 The Classical Solution to Leakages
- 3. The Keynesian Model
 - 3.1 Consumption
 - 3.2 Investment
 - 3.3 The Aggregate Expenditure Schedule
 - 3.4 The Possibility of Unintended Investment
 - 3.5 Movement to Equilibrium in the Keynesian Model
 - 3.6 The Problem of Persistent Unemployment
 - 3.7 The Multiplier
- 4. Concluding Thoughts
- Appendix: An Algebraic Approach to the Multiplier

Chapter 9: Fiscal Policy

- 1. The Role of Government Spending and Taxes
 - 1.1 A Change in Government Spending
 - 1.2 Taxes and Transfer Payments
 - 1.3 The Circular Flow with Government Spending and Taxes
 - 1.4 Expansionary and Contractionary Fiscal Policy
- 2. The Federal Budget
 - 2.1 Deficits and Surpluses
 - 2.2 Automatic Stabilizers
 - 2.3 Discretionary Policy
- 3. Policy Issues

- 3.1 Crowding Out and Crowding In
- 3.2 Infrastructure and Social Investment
- 3.3 Different Multiplier Effects
- 3.4 Applying Fiscal Policy

Appendix: More Algebraic Approaches to the Multiplier

- A1. An Algebraic Approach to the Multiplier, with a Lump-Sum Tax
- A2. An Algebraic Approach to the Multiplier, with a Proportional Tax

Chapter 10: Money, Banking, and Finance

- 1. Why money?
 - 1.1 Money and Aggregate Expenditure
 - 1.2 "Running the Printing Press"
 - 1.3 Deflation and Financial Crises
 - 2. What Is Money?
 - 2.1 The Roles of Money
 - 2.2. Types of Money
 - 2.3 Measures of Money
 - 3. The Banking System
 - 3.1 Commercial Banks
 - 3.2 Bank Types
 - 3.3 How Banks Create Money
 - 4. The Financial System
 - 4.1 Functions of Finance
 - 4.2 Non-Bank Financial Institutions
 - 4.3 Financialization and Financial Bubbles
 - 4.4 Theories of Financial Instability
- Appendix: The 2007-07 Financial Crisis

Chapter 11: The Federal Reserve and Monetary Policy

- 1. The Federal Reserve System
- 2. Monetary Policy
 - 2.1 How the Fed Creates Money and Credit
 - 2.2. Other Monetary Policy Tools
- 3. The Theory of Money, Interest Rates, and Aggregate Expenditure
 - 3.1 The Federal Funds Rate and Other Interest Rates
 - 3.2 Interest Rates and Investment
 - 3.3 Monetary Policy and Aggregate Expenditure
- 4. Monetary Policies in Practice
 - 4.1 Responding to Inflation
 - 4.2 Responding to Recession
- 5. Theories of Money, Prices, and Inflation
 - 5.1 The Quantity Equation
 - 5.2 Competing Theories
 - 5.3 Money Supply, Money Demand, and the Liquidity Trap
- 6. Complications and Policy Controversies

- 6.1 The Fed's Dilemma
- 6.2 Rules versus Activism

Appendices

- A1. Bond Prices and Interest Rates
- A2. Short Versus Long-Run and Real Versus Nominal Interest Rates

Chapter 12: Aggregate Supply, Aggregate Demand, and Inflation: Putting It All Together

- 1. Aggregate Demand and Inflation
 - 1.1 The Aggregate Demand (*AD*) Curve
 - 1.2 Shifts of the *AD* Curve: Spending and Taxation
 - 1.3 Shifts of the *AD* Curve: Monetary Policy
 - 2. Capacity and the Aggregate Supply Curve
 - 2.1 The Aggregate Supply (*AS*) Curve
 - 2.2 Shifts of the *AS* Curve: Inflationary Expectations
 - 2.3 Shifts of the *AS* Curve: Supply Shocks
 - 3. Putting the AS/*AD* Model to Work
 - 3.1 An Economy in Recession
 - 3.2 An Overheated Economy
 - 3.3 Responding to Inflation
 - 3.4 Technology and Globalization
 - 4. Competing Theories
 - 4.1 Classical Macroeconomics
 - 4.2 Keynesian Macroeconomics
- Appendix: More Schools of Macroeconomics
- A1. New Classical Economics
 - A2. The Neoclassical Synthesis and New Keynesian Macroeconomics
 - A3. Post-Keynesian Macroeconomics

Chapter 13: The Global Economy and Policy

- 1. Macroeconomics in a Global Context
 - 1.1 Global Connections
 - 1.2 Major Policy Tools
 - 1.3 Patterns of Trade and Finance
 - 1.4 Transnational Corporations and Global Supply Chains
- 2. The Trade Balance: Completing the Picture
 - 2.1 The Circular Flow Revisited
 - 2.2 Effects on the Multiplier
 - 2.3 Balance between Savings, Investment, and Net Borrowing
- 3. International Finance
 - 3.1 Exchange Rates
 - 3.2 Purchasing Power Parity
 - 3.3 The Balance of Payments
- 4. Macroeconomics in an Open Economy

- 4.1 Fiscal Policy
- 4.2 Monetary Policy
- 4.3 A Special Case: Economic Stimulus in the Pandemic Era
- 4.4 Managed Versus Flexible Foreign Exchange
- 4.5 Developing Country Problems: Balance of Payments and Debt Crises
- 5. International Financial Institutions
- Appendix: An Algebraic Approach to the Multiplier, in a Model with Trade

Part IV: Macroeconomic Issues and Applications

Chapter 14: Inequality: Economic and Social Perspectives

- 1. Defining and Measuring Inequality
 - 1.1 Differing Perspectives on Inequality
 - 1.2 Measuring Inequality
- 2. Inequality Trends and Issues in the United States
 - 2.1 Income Inequality over Time
 - 2.2 Wealth Inequality
 - 2.3 Labor Market Discrimination
- 3. International Data on Inequality
 - 3.1 Cross-Country Comparisons
 - 3.2 Global Inequality
 - 3.3 Inequality and Growth
- 4. The Creation of an Unequal Society
 - 4.1 Causes of Rising Income Inequality
 - 4.2 Financialization and Inequality
 - 4.3 Macroeconomic Policies and Inequality
- 5. Policies to Promote Greater Equality

Chapter 15: Deficits and Debt

- 1. Deficits and the National Debt
- 2. The U.S. National Debt: A Historical Perspective
 - 2.1 Two Centuries of Deficits and Debt
 - 2.2 “Supply-Side” Economics
 - 2.3 1989 to the Present
- 3. The Debt and its Links to Finance
 - 3.1 Taxonomy of Debt Types
 - 3.2 Federal Government Borrowing: Potential Problems
- 4. Political Economy of the Debt
 - 4.1 Who Owns the Debt?
 - 4.2 The Twin Deficits
 - 4.3 The Balanced Budget Debate
- 5. Deficit Projections and Potential Policy Responses
 - 5.1 Deficit Projections

- 5.2 Future Policy Choices
- 5.3 Debt and Deficits in Context

Chapter 16: How Economies Grow and Develop

- 1. Economic Growth and Development
 - 1.1 Standard Economic Growth Theory
 - 1.2 Experiences of Economic Growth Around the World
 - 1.3 Measures and Trends in Poverty
 - 1.4 Income and Economic Well-Being
- 2. Economic Development in the World Today
 - 2.1 Early Experiences and Theories of Development
 - 2.2 A Second Wave of Development Theory
- 3. Twenty-First Century Reconsiderations of the Sources of Economic Growth
- 4. Recent Perspectives and Sustainable Development Goals
- 5. Different Kinds of Economies

Chapter 17: Growth and Sustainability in the Twenty-First Century

- 1. Macroeconomics and Sustainability
- 2. Major Environmental Issues
 - 2.1 Global Population
 - 2.2 Nonrenewable Resource Availability
 - 2.3 Renewable Resources
 - 2.4 Pollution and Wastes
- 3. Climate Change
 - 3.1 Climate Change Science, Data, and Impacts
 - 3.2 The Economics of Climate Change
 - 3.3 Climate Change Policy
- 4. Economic Growth and The Environment
 - 4.1 The Environmental Kuznets Curve Hypothesis
 - 4.2 Does Protecting the Environment Harm Employment and Economic Growth?
 - 4.3 Economic Perspectives on the Transition to a Sustainable Economy
- 5. Policies for Sustainable Development
 - 5.1 Rethinking Employment and Production
 - 5.2 Reforming Tax and Subsidy Policies
 - 5.3 Greening Macroeconomic Policy
- 6. Concluding Thoughts
