To: Garetto, Stefania <garettos@bu.edu>

Dear Mrs. Garetto,

The OECD Centre for Skills is currently seeking a highly motivated candidate with an advanced university degree in economics or public policy, with a strong foundation in quantitative analysis and statistics. The Centre works collaboratively with a range of countries to build more effective skills policies and strategies, conducting in-depth analyses in education, labour market and other relevant skills policy areas. The work will involve research, data and policy analysis to identify relevant policy issues, extract policy lessons, and develop relevant, constructive policy advice to countries

Given the quality of talent in your department, we would be very grateful if you could circulate the job posting below among your students, for whom it could be relevant. Please note that applications close on Monday, October 3rd.

<https://oecd.taleo.net/careersection/ext/jobdetail.ftl?lang=fr-FR&job=15639> (French)

Please do not hesitate to get back to us in case of any questions.

Thank you very much in advance.

Best regards,

Andrew Bell, Francesca Borgonovi and Marieke Vandeweyer
Senior policy analysts – OECD Centre for Skills
