Dear Research Colleagues -

I am writing to call your attention to a number of fellowship opportunities for post-doctoral scholars and graduate students in the 2023-24 academic year. These fellowships are administered by the NBER and might be of interest to current students, recent graduates, and junior faculty members. Graduate student awards generally support research at the fellow's home university, while post-doctoral fellowships are expected to spend the year in Cambridge. I would be very grateful if you would share the information on these fellowships with anyone who might be interested in applying. The deadline for most fellowships is Thursday, December 8, 2022. Further details on the application process may be found here:

<https://www.nber.org/career-resources/calls-fellowship-applications>

Thank you for your help. All best wishes for a Happy Thanksgiving!

Jim Poterba

PRE-DOCTORAL FELLOWSHIPS FOR PH.D. STUDENTS

- * Aging and Health Research (8 fellowships based at NBER's Cambridge office funded by NIH; open to US citizens and permanent residents)
- * Behavioral Macroeconomics (2 fellowships funded by the Alfred P. Sloan Foundation)
