

Slab Roller Awareness Reminder

Potential Hazards

- ▶ A slab roller can be hazardous when improperly used. Incidents could include personal injury.

Solutions

- ▶ The following general precautions should be observed by slab roller users:
- ▶ NEVER put hands under or near roller when adjusting your shims and canvas or positioning the clay as others may turn the handle or wheel. When rolling the clay, the same applies— KEEP HANDS, HAIR, CLOTHES AWAY FROM ROLLER AND CARRIAGE. MODEL SRC: KEEP HANDS, HAIR AND CLOTHES AWAY FROM CABLES AND MOVING PARTS.

Proper Training on Safety Awareness for each piece of equipment should be documented in the Training Log
