DESCRIPTION: From Course Description on file: "Principles of probability and statistics including events, Bayes' theorem, random variables, joint and marginal distributions, random sequences and series, reliability theory, estimation, and quality control. Examples drawn from engineering applications. 2 cr. 2 cr. either sem"

CLASS: MW 2:30 – 3:20, **EPC 209**

DISCUSSION: TBD, see TF office hours

TEXT: Applied Statistics and Probability for Engineers, Montgomery and Runger 6th edition or 7e edition, Wiley. Ill give a problem correspondence between 6th and 7e editions. Syllabus will refer to 7e sections of text.

PROFESSOR: Glynn Holt rgholt@bu
110 Cummington, Rm 417
Office hours Th, 2-4:00, or by appointment

GRADING:	40%	(Weekly Homework)
	40%	(Weekly In-Class Quizzes)
	20%	Final Exam

HOMEWORK: Homework assignments are given out weekly with a few exceptions. They are due at the BEGINNING of class on the due date listed. LATE HOMEWORK WILL NOT BE ACCEPTED unless circumstances merit the exception.

EXAMS: I will give a 5 minute quiz at the beginning of every Wednesday (mostly) class, with a few exceptions. I will give a comprehensive final exam. No mid-term. "Make-up" exams will rarely be given, and never in the case of prior knowledge of a time conflict (you must arrange to take the test before you are away). A "make-up" quiz will be different from the quiz given in the class, and may be oral.

The final exam will be comprehensive., and scheduled by the registrar. Study. The final exam is TBD. DO NOT UNDER ANY CIRCUMSTANCE SCHEDULE TRIPS OR FLIGHTS HOME UNTIL AFTER THE OFFICIAL UNIVERSITY EXAM PERIOD. Study.

DROP DATES: Pay attention to the University's schedule of drop dates. You cannot drop this course after the last "W" date because of an impending low grade – you will receive your current grade if you drop after the official W date. "Incomplete" grades are reserved for the most extreme of circumstances, and are a NEGOTIATED CONTRACT between the student and myself.
