Students are required to earn a total of 32 credits (8 courses) at the graduate level (500-level and above) with grades of C or better in order to graduate. Students must achieve a degree GPA $\geq 3.0$ for the 32 credits used toward the degree. If cumulative GPA drops below 3.0, the student will be put on academic probation.

**PROGRAM REQUIREMENTS**

1. **SOFTWARE REQUIREMENT (4 credits)**
   - [ ] EC602: Design by Software in ECE* See note below

2. **PRACTICUM REQUIREMENT (4 credits)** – Please select one:
   - [ ] EC601: Product Design in ECE* See note below
   - Students who place out of EC601 must then select one of the following below:
     - [ ] EC953: MS Project
     - [ ] EC954: MS Thesis

3. **ECE GRADUATE ELECTIVES (16 credits)** - Please list your 16 credits (4 courses) from ECE graduate courses at the 500-level or above (excluding EC601 and EC602).

   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________

4. **GENERAL ELECTIVES (8 credits)** – Students may take 8 credits (2 courses) of general graduate electives (not counted for their ECE electives). General graduate electives include College of Engineering graduate-level courses except courses utilized to meet other requirements. Graduate courses outside the college must be approved by the department MS committee; those listed on the back of this sheet have already been pre-approved.

   ________________________________________________________________
   ________________________________________________________________

*Note: In order to waive or be exempt from this requirement, students must pass a placement exam typically given at the beginning of the academic year.
Electives
(See the College of Engineering Bulletin for course descriptions)

The following subdivisions are provided-for informational purposes only-to guide you in choosing electives according to your interests.

Bio-ECE and Digital Health
EC505 EC516 EC520 EC555 EC571 EC580 EC582 EC716 EC717 EC720 EC772 EC782 EC765

Computational and Cyberphysical Systems
