

## APPLICATION FOR A DOUBLE MAJOR

College of Engineering students have the ability to earn two B.S. engineering degrees by double majoring. Students who double major must complete a minimum of 160 credits and fulfill the requirements for each of the degree programs. Students requesting to double major must have at least sophomore standing (32 credits) and have a cumulative GPA of at least 3.00 to be eligible. Students must complete an Application for Double Major and obtain approval from both departments. Please note that the completion of a double major may result in extended time to graduation, and that students must complete the course requirements for both degrees before either degree will be awarded. Students are at liberty to withdraw from one major at any time by contacting the Undergraduate Records Office (engrec@bu.edu).
