GRADING

ATTENDANCE: Attendance will be taken and will count as 10% of the semester grade. If you have 2 or fewer absences, you will get full credit for attendance.

EXAMS: There will be an open book in-class exam on Thursday, October 7. The take home exam from November 11 to November 16 will also be open book. There will be a final take home exam. The average exam grade will count as 60% of the semester grade.

HOMEWORK: There will be at least 10 homework assignments which are due on assigned dates. The lowest homework grade will be dropped, the homework average will count 20% of the semester grade.

PROJECT: There will be a project, to be done by teams of 4 to 6 students. The project will be the modification of the annual report of a manufacturing company or the preparation of a 2 year business plan for a manufacturing company. The project grade will be 10% of the semester grade.

FINAL GRADES: Those students, who on the last day of class have an average of 90% or better, have earned an A in the course and are exempt from taking the final exam. Students with an average of 80% or better are also exempt from taking the final exam, but may, at their discretion, choose to take the final to improve their course average. Students with a course average of less than 80% on the last day of class have not demonstrated evidence of having sufficient working knowledge of the course material and are required to take the final exam.

GRADING SUMMARY:	EXAM AVERAGE	60%
	HOMEWORK	20%
	PROJECT	10%
	ATTENDANCE	10%

EK409 ENGINEERING ECONOMY
HOMEWORK ASSIGNMENTS
FALL 2010

ASSIGNMENT	DUE DATE
1	Friday, September 10
2	Friday, September 17
3	Friday, September 24
4	Friday, October 1
5	Friday, October 8
6	Friday, October 15
7	Friday, October 22
8	Friday, October 29
9	Friday, November 5
10	Friday, November 19
11	Friday, December 3

All homework assignments will be handed out during the week of the due date. Graded homework can be picked up from the slots next to the office door. Homework can be handed in at the office. If the door is open, just find the homework pile for that assignment. If the door is closed, please slide your homework under the door.

DO NOT LEAVE YOUR HOMEWORK IN THE MAIL SLOTS NEXT TO THE OFFICE DOOR, THEY ARE FOR GRADED HOMEWORK ONLY!!!

From time to time supplementary material may be handed out in class. Whenever there is a handout, including homework assignments, it will be circulated through the classroom, and copies will be available on the desktop nearest each door. If, when entering class, you notice a handout on the corner desk, please pick one up on the way to your seat. In the event you happen to miss a handout in class, extra copies of the handout will be available in the rack outside Room 138, 15 St. Mary's Street.

The work you submit for grading is expected to be your own. On your exams you will be expected to affirm that by signing a short statement to that effect, a copy of which is shown on the attached sample exam cover. While homework assignments don't require an individual statement like the exam, they are expected to be your own work and your submission of homework in your name will be deemed to confirm that it is your work. In the first case of apparent plagiarism on homework, the homework grade will be evenly divided among the students in question. In subsequent cases involving the same students, a zero grade will be given on those homeworks. Obvious and flagrant cases may be brought before the Committee on Students.

General Information

In order to bring current relevance to the teaching of engineering courses, to remain up-to-date on the state of the art of various technologies and to satisfy my own curiosity, I subscribe to and read(or scan) a number of publications. Some of these are available in my office for your use. If I am aware of the particular interests of some of my students, I look for and save copies of relevant, current articles about those interests. If you would like to indicate such interests to me on the appropriate line of your registration form for this course, I'll try to spot relevant articles and call your attention to them or provide you with copies for your use and information. Feel free to indicate your interest in a company, industry, technology, product line or one of the publications listed below. A partial list of publications follows.
