

Robotics & Autonomous Systems MS Thesis Proposal Form

Student Name: _____ BU ID: _____ Email: _____

Thesis Title: _____

Thesis Proposal Description

Please attach your thesis proposal, which should include:

1. Relevant background
2. Any work already completed
3. A plan of research with sufficient technical details to evaluate the scope and technical depth of the work
4. A timeline for completion

Proposed Thesis Committee

The MS Thesis committee is comprised of a minimum of three members; at least two of the three members must be from the College of Engineering faculty.

Thesis Committee Members

To the Thesis Committee Members:

It is the student's responsibility to schedule a formal meeting with their MS Thesis Committee members at least once for discussion and approval of the proposal document. Your signature below will confirm your attendance at this meeting, that you feel the proposed topic is worthy of thesis research and can be completed in a 2-semester timeline, and that you agree to serve on the student's MS Thesis Committee. This meeting must happen before the student's first semester of thesis credit (ex. if the student is registered for thesis in the Fall, then the meeting should be during the Summer).
