Brandi B.

Meddeas is the reason I was able to accomplish my goal of teaching abroad. They were able to offer an incredible program that included a wonderful school and a liveable grant.

Paul M.

Having arrived knowing only a few key phrases, being immersed within the language and culture ensured I quickly developed my Spanish skills and by the end I could cope fairly well!

## Do you want to live a once in a lifetime experience?

Becoming a Language Assistant in a Spanish school with Meddeas is a unique experience that will stay with you for your entire life. During one academic year, you will enroll in a structured program and cooperate with a Spanish school. Moreover, you will **add international experience and transferable skills to your CV** while discovering a new culture and language. You will also receive a monthly grant, which is more than enough to live in Spain as a student. And you'll pay no fees!

There are two lodging options: full board accommodation with a host family or independent housing.

## About us

Meddeas is a Spanish organization with presence in five countries that supports multilingual teaching in more than 200 educational centers. It offers Language Assistant programs and provides consultancy services. Many recent graduates from the main universities in the US have already joined our programs.

## So what does Meddeas offer you?

No matter what your background is, there is a Meddeas' program for you that will include a University certified course.
