

By-laws
for the
Constitution of the Boston University Faculty Assembly
and
Faculty Council

I. Membership and Voting Rights in the Faculty Assembly

1.1 Identification of Faculty Assembly members

- a. The Faculty Council shall review and recommend a list of all faculty who are eligible for membership in the Faculty Assembly twice annually. The list shall be provided by the Office of Institutional Research, or successor office, and shall include the name, status, school or college affiliation and mailing address of each faculty member who meets the criteria established in Article III of the Constitution and this by-law.
- b. At the first meeting of the Faculty Council each semester, the Faculty Council will certify, by majority vote, the membership and voting status of the faculty for the Faculty Assembly. Such certification shall remain in effect until the list is amended or a new list is certified by the Faculty Council. Additions or deletions to the list of members may be adopted by the Faculty Council or the Faculty Assembly only upon recommendation of the Credentials and By-laws Committee. Such additions or deletions may concern membership or voting status or both.
- c. To facilitate activities of the Faculty Assembly, when appropriate, a tentative membership list may be used by the Faculty Council and Assembly for mailing and other similar purposes. This tentative list shall be reviewed by the Credentials and By-laws Committee. In no case, however, shall the privileges of Assembly membership be exercised by an individual unless and until the membership and voting status of the individual have been certified.

 - i. the appointment with the University is terminated;
 - ii. a leave of absence is initiated.

Notwithstanding the foregoing, any faculty member whose appointment satisfies the criteria of 1.2(a), who is on leave of absence, whether unpaid or as a sabbatical, and who informs his/her dean or department of his/her availability to remain an active Assembly member during any semester of his/her leave, shall continue to be a member of the Faculty Assembly for such semester.

- c. All members of the Faculty Assembly shall have one vote each.

- d. When the faculty of a school or college wishes membership in the Faculty Assembly to be extended to faculty members of the school or college from membership by virtue of rank or title, the faculty may petition the Faculty Council. The petition should give:
 - i. The specific rank and title of the faculty for whom membership is sought, the criteria used by the school or college for appointment and promotion of such faculty and the conditions of their service, including their full or part-time status and their voting privileges, if any, in the faculty of the school or college.
 - ii. The number of faculty for whom membership is sought (and the average number of such faculty for each of the

preceding five [5] years) and the numbers of other faculty (by rank and title) in the school or college holding voting membership, respectively, in the Faculty Assembly (and the numbers of such Assembly faculty for each of the preceding five [5] years).

- iii. The reasons why the petitioning faculty requests that membership in the Assembly be awarded, and the present basis in the Constitution and/or By-laws for exclusion of the faculty from membership in the Assembly.
- iv. The process by which the petition was developed and approved by the petitioning faculty.
- v. Any other information which might assist the Faculty Council to reach its decision, including the anticipated influence of the proposed change on representation of the school or college in the Faculty Council.

The Faculty Council Committee on Credentials and By-laws shall review each petition and make recommendations to the Faculty Council.

Representatives to the Faculty Council from the faculty which submitted the petition shall not participate in the vote.

1.3 Determination of the Number of Representatives for each School, College or Other Faculty

- a. For the purposes of electing the proper number of representatives from each school or college pursuant to the Constitution, the officers of the Faculty Council shall use the most recent membership list, as certified by the Faculty Council. The number of members in each school or college by that list shall be announced following certification.
- b. A member who holds multiple faculty appointments shall have his/her vote attributed to the school or college which receives the largest portion of his/her services, and if she/he has two or more appointments equal in weight, to the school determined by the choice of the faculty member.

- c. In cases where the membership list does not show a school or college designation for a member, the Credentials and By-laws Committee shall, after consultation with each such member and, after following procedures outlines in 1.2 (a) above, make a determination, of which school or college each such member shall have his/her vote attributed.
- d. Although the number of members of the schools and colleges may change during the year due to amendment or re-certification, the distribution of representatives as determined from the most recent list approved by the Faculty Council shall remain in effect for the full year following the annual election of representatives.
