How to Use Kaltura to Capture and Post or Submit Video

This course will be using Kaltura Capture software that is incorporated into Blackboard. Use the following instructions to install and use the software and then post or submit your video or audio recording as a discussion or assignment.

Capturing, Saving, and Uploading Your Video

1. On your Online Campus Dashboard, find Tools on the left side column

2. From the tools page, find and click MyMedia

3. Select Add New and Kaltura Capture

If you have not previously downloaded the Kaltura Capture Desktop Recorder, you will prompted to **Download**.

4. Select the options you would like to record (**for example, screen, camera, audio**). Click on the red "**Record**" button once you're ready.

5. Record your presentation using the control on the toolbar. Once your recording is complete, click the "Stop Recording" square icon.

6. Add a title to your recording. Select "Save and Upload".

Captioning Your Video

Closed captioning for media is now available directly in the MyMedia interface.

Mechanical captions are 60-70% accurate based on several factors (i.e., diction, audio equipment and room noise). They are intended to be used as a base for creating accurate captions to facilitate search, interactive transcripts,

and other features.

- 1. Select the **Actions** drop-down menu.
- 2. Select Order Captions.
- 3. Under Source Media Language, choose the main speaker language.
- 4. Select Order Captions to submit the order.
