To purchase \$12 tickets in advance, visit <http://bit.ly/EMAFund>; enter "After Tiller Screening" under **designation**

Since the assassination of Dr. George Tiller in 2009, there are only four American doctors left who openly provide third-trimester abortions. The feature-length documentary *After Tiller* paints a complex, compassionate portrait of these physicians who have become targets of the anti-abortion movement, yet continue to risk their lives to do work which they believe is profoundly important for their patients' lives.
