

Map 1 : Satellite Map

- 1) What is the latitude and longitude of point 1?

- 2) What is the latitude and longitude of point 2?

- 3) What is the latitude and longitude of point 3?

- 4) What is the latitude and longitude of point 4?

- 5) What is the latitude and longitude of point 5?

- 6) Based on the satellite image, what is the distance between point 1 and point 5?

Map 2: Contour Map

1) What is the elevation of at point 1? How do you know?

2) What is the elevation of at point 2? How do you know?

3) What is the elevation of at point 3? How do you know?

4) What is the elevation of at point 4? How do you know?

5) What is the elevation of at point 5? How do you know?

6) What is the elevation of at point 6? How do you know?
